(57) **ABSTRACT**

A system, server, mobile device, and method for determining action spot location. The action spot location can be determined relative to the location of a mobile device. The mobile device can include a display and a processor module communicatively coupled to the display. The system, server, mobile device, and method can receive data indicative of the current location of the mobile device, and determine at least one action spot relative to the current location of the mobile device. The action spot can be a location where at least one other mobile device has engaged in documenting action within a predetermined period of time from when the mobile device arrived at the current location.

1000

1010 — Display a graphical user interface

↓

1020 — Receive data indicative of current location

↓

1030 — Determine at least one action spot within a predetermined distance from the current location

↓

1040 — Signify the at least one action spot on the graphical user interface

↓

1050 — Provide an indication of the activity level at the at least one action spot

DOCKET ALARM

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS
Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS
Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS
Sync your system to PACER to automate legal marketing.

fastcase
Smarter legal research.
