U.S. Patent No. 8,209,634

Petitioners' Demonstratives

July 16, 2020

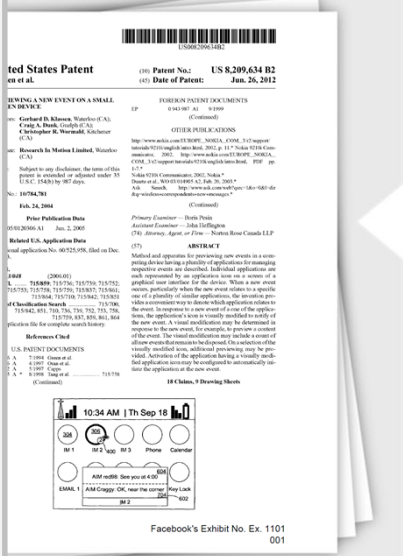

Before Miriam L. Quinn, Gregg I. Anderson, and Robert L. Kinder,

Administrative Patent Judges

DEMONSTRATIVE EXHIBIT – NOT EVIDENCE

1

Claim 1 of the '634 Patent

U.S. Patent 8,209,634 Ex. 1101

1. A method of providing notifications of unread messages on a wireless communication device, comprising: displaying at least one icon relating to electronic messaging on a graphical user interface of the wireless communication device; receiving a plurality of electronic messages on the wireless communication device, the plurality of electronic messages including messages from a plurality of different messaging correspondents; and in response to receiving at least one of the plurality of electronic messages, visually modifying at least one displayed icon relating to electronic messaging to include a numeric character representing a count of the plurality of different messaging correspondents for which one or more of the electronic messages have been received and remain unread.

- Independent claims 7 and 13 substantially the same

Instituted Grounds

Ground	Claims	Basis for Challenge under §103(a)
1	1, 4-5, 7, 10-11, 13, 16-17	Ording (Ex. 1103), Abiko (Ex. 1109), Crumlish (Ex. 1110) and Dvorak (Ex. 1111)
2	6, 12, 18	Ording, Abiko, Crumlish, Dvorak, and McPherson (Ex. 1112)
3	1, 4-5, 7, 10-11, 13, 16-17	Ording, Abiko, Crumlish, Dvorak, and Strom (Ex. 1115)
4	6, 12, 18	Ording, Abiko, Crumlish, Dvorak, McPherson, and Strom

- For all grounds, Ording is primary reference
- Grounds 3-4 add Strom for “small-screen” wireless communication device

Disputes

motivation to combine prior art re:

“visually modifying at least one displayed icon ... to include numeric character representing a count of the plurality of different messaging correspondents for which one or more of the electronic messages have been received and remain unread”

“displaying ... at least one preview”

1. A method of providing notifications of unread messages on a wireless communication device, comprising:
 - displaying at least one icon relating to electronic messaging on a graphical user interface of the wireless communication device;
 - receiving a plurality of electronic messages on the wireless communication device, the plurality of electronic messages including messages from a plurality of different messaging correspondents; and
 - in response to receiving at least one of the plurality of electronic messages, visually modifying at least one displayed icon relating to electronic messaging to include a numeric character representing a count of the plurality of different messaging correspondents for which one or more of the electronic messages have been received and remain unread.
6. The method of claim 1, comprising displaying on the graphical user interface at least one preview of content associated with at least one of the received electronic messages.

Claim Construction

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
