2 (Pursuant to Article 10(B) of the Rules and
3 Regulations of the Georgia Board of Court
4 Reporting, a written disclosure statement was
5 submitted by the court reporter to all counsel
6 present at the proceeding.)

7 * * *

8 VIJAY MADISETTI, Ph.D.,

9 Having been first duly sworn to state the truth, was
10 examined and testified as follows:

11 EXAMINATION

12 BY MR. EDMONDS:

13 Q. Would you please state your name?

14 A. Vijay Madiseti.

15 Q. And do you realize that you're here under
16 oath for a deposition?

17 A. I do.

18 Q. Is there anything about your health or
19 wellbeing that would inhibit in any way your ability
20 to give full and truthful answers to this deposition?

21 A. No.

22 Q. How many kinds of Bluetooth connections are
23 possible?

24 A. I didn't understand the question.

25 Q. What different kinds of Bluetooth

1 that the priority date is December of 2007.

2 BY MR. EDMONDS:

3 Q. Okay. So I'm just making sure we're
4 communicating. When you say priority date, you're
5 referring to December of 2007, correct?

6 A. I was asked assume December 2007 as the time
7 mentioned.

8 Q. So when I say priority date, you'll
9 understand that I'm talking about December of 2007 in
10 the context of this conversation. Understood?

11 A. Okay. I can do that.

12 Q. Okay. As of the priority date, was
13 cryptographic authentication optional in Bluetooth?

14 MR. NEWTON: Objection.

15 THE WITNESS: I would have to refer to the
16 standard specifically. My disclosures and
17 reliance on Bluetooth was to show that there is
18 cryptographic authentication, for example,
19 mandated in security mode 3 in version 2.1; and
20 that itself is sufficient to render obvious that
21 cryptographic authentication in Bluetooth and the
22 disclosure of Bluetooth in Hiroishi would render
23 the limitation of cryptographic authentication
24 obvious.

25 BY MR. EDMONDS:

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
