

Exhibit 4 - U.S. Patent No. 10,043,188 Invalidity Claim Chart over the Background Solutions System

The Background Solutions Prior Art System (“Background Solutions” or “Background Solutions System”) anticipates and/or renders obvious in either alone or in combination with other prior art references (and/or in combination with the knowledge of a person of ordinary skill at the time of the invention) as construed and/or as construed by Miller Mendel in its Proposed Claim Construction and/or as applied by Miller Mendel in its Infringement Contentions.

Miller Mendel’s Infringement Contentions have been included in the chart to the extent that they breathe clarity into the invalidity analysis; however, The City of Oklahoma City agrees with Miller Mendel regarding either the scope of any of the asserted claims or the claim constructions advanced by Miller Mendel anywhere else, or that any of The City of Oklahoma City’s accused systems meet any limitations of the claims. Nothing stated herein shall be construed as a waiver of any argument available under 35 U.S.C. § 112, including by arguing that they do not. The City of Oklahoma City also reserves all rights to challenge any of the claim terms herein under 35 U.S.C. § 112, including by arguing that they do not. Nothing stated herein shall be construed as a waiver of any argument available under 35 U.S.C. § 112.

In the following chart, the Background Solutions System, an automated system in use in the United States prior to the ’188 patent and/or in public use prior to one or more documents concerning the function, operation, and/or features of the Background Solutions System. The City of Oklahoma City has provided evidence of the Background Solutions System (including product samples, source code, and/or witness testimony), and to present alternative or additional evidence of the Background Solutions System as evidence that the Background Solutions System anticipates and/or renders obvious the asserted claims of the ’188 patent.

Further, each prior art reference cited below, itself, anticipates and/or renders obvious the asserted claims of the ’188 patent. The City of Oklahoma City also reserves all rights to challenge any of the claim terms herein under 35 U.S.C. § 112, including by arguing that they do not. The Background Solutions System as an independent prior art reference that anticipates and/or renders obvious the asserted claims of the ’188 patent.

Evidence of the public availability of the Background Solutions system includes the following:

- Background Solutions Screenshot Products (“OKC-0002244”)
- Background Solutions Screenshot Services (“OKC-0002246”)
- Background Solutions Demo (“BGS-0006247”)
- Background Solutions Screenshot FAQ (“OKC-0002247”)

The cited portions of the prior art references are merely illustrative, and The City of Oklahoma City reserves the right to rely on alternative or additional evidence. The chart below states that the Background Solutions System “discloses” a limitation, such disclosure may be express, inherent, or implicit.

In addition, one or more claims of the ’188 patent are rendered obvious in light of the Background Solutions System alone, the Background Solutions System as disclosed in the chart below, or the Background Solutions System in combination with one or more of the references identified in Section II of the chart.

Exhibit 4 - U.S. Patent No. 10,043,188 Invalidation Claim Chart over the Background

'188 Patent – Claim 1	Plaintiffs' Proposed Construction	Plaintiffs' Position on Infringement	Background Solutions
<p>[1b] storing a new applicant entry in the system memory, the new applicant entry associated with the first set of program data;</p>	<p>Applicant entry: "A system record associated with the applicant for the position with the organization, and for whom the background check will be performed."</p>		<p>Background Solutions discloses storing a new applicant entry.</p> <p>See, e.g.,</p> <p>"Receive a printed copy of your applicant's online application (BGS-0002244)"</p>
<p>[1c] transmitting an applicant hyperlink to an applicant email address associated with the applicant, the applicant hyperlink for viewing an applicant set of electronic documents;</p>	<p>Applicant hyperlink: "A link from [sic] a hypertext file or document to another location or file, typically activated by clicking on a highlighted word or image on the screen."</p>	<p>"The [Guardian Alliance] Applicant Portal has a section called "forms" that show a set of electronic documents. For each, there is a download and upload icon. The portal states 'All items in the checklist must be turned into [sic] your investigator.' Though the video did not demonstrate this feature, the Applicant Portal appears to have electronic documents for viewing. The applicant questionnaire is itself an electronic document."</p>	<p>Background Solutions discloses transmitting an applicant hyperlink for viewing an applicant set of electronic documents;</p> <p>"In addition to an online application, Background Assistant [sic] position, but has expressed interest. Once the invitation has been received, the applicant can view the application in an online format." (BGS-00062471:27)</p>  <p>(BGS-0006247 at 1:27)</p>
<p>[1d] receiving an applicant electronic response with a reference set of program data, wherein</p>	<p>Reference source: "A person invited to give personal reference information regarding the Applicant."</p>		<p>Background Solutions discloses receiving an applicant electronic response comprising information regarding a reference source, wherein the reference source is associated with the reference source.</p> <p>See, e.g.,</p>

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
