Patent Owner.

Case IPR2020-00126
Patent 8,048,032

**PATENT OWNER'S OBJECTIONS TO PETITIONER'S REPLY
EVIDENCE**

Pursuant to 37 C.F.R. § 42.64(b)(1), Patent Owner hereby submits its notice of objections to certain evidence that Petitioner submitted in connection with IPR2020-00126, -0127, -0128, -0129, -0130, -0132, -0134, -0135, -0136, -0137, and -0138, including evidence submitted in connection with Petitioner's briefing relating to conception and reduction to practice.

Patent Owner notes that certain exhibits were cited in one or more of the above-referenced IPR proceedings but do not appear to have been filed (either at all or only in some of the IPRs); Patent Owner reserves the right to file supplemental and/or additional objections and/or move to strike those exhibits.¹ Given the apparent omission of certain exhibits from certain IPRs, for the sake of consistency and clarity, Patent Owner submits the below single set of objections.

In addition, the depositions of Patent Owner's experts Mr. Keith and Dr. Graham in the eleven instituted IPRs each occurred over two days. It appears that Petitioner only filed certain days of deposition transcripts in certain IPRs and not in others. As noted below, Patent Owner objects to this practice on the basis of incompleteness (see FRE 106). In addition, the parties' practice in these IPRs has been to file deposition transcripts in each of the eleven instituted IPRs, and Petitioner had represented it intended to do so.

¹ By way of example, it appears that Petitioner cited but did not file Ex-1839, Ex-1840, and Ex-1841.
