Product Patents

The products and their related methods appearing in the list below may be covered by one or more of the following U.S. or international patents. Other U.S. patents, international equivalent patents, and/or distinct international patents may also apply or be pending. The reader is hereby placed on notice of Teleflex's rights in the U.S. and/or international patents associated with the following products and their related methods.

To the extent a product, product name, method, feature, or design does not appear on the following list, such omission does not constitute a waiver of any or all intellectual property rights that Teleflex has established in any of its products, product names, methods, features, or designs. Other Teleflex products and methods not listed here may be protected by one or more patents.

This website is provided to satisfy the virtual patent marking provisions of various jurisdictions, including the virtual patent marking provisions of the America Invents Act.

Product(s)	Patent Number(s)
