

GuideLiner™ Catheter

Coaxial guide extension with
rapid exchange convenience

- Flexible coaxial guide liner that allows guide extension into vessel for deep seating
- Simplified mother and child technique for use in challenging interventions
- Rapid exchange convenience

VSIMDT00027342

GuideLiner™ Catheter

provides a rapid exchange

THE PROBLEM

Guide catheters can back-out when resistance is met while advancing a catheter or wire in challenging interventions

VSIMDT00027343

Large guide extension for added back-up support

THE SOLUTION

The GuideLiner provides an extension of the guide for deep seating and added back-up support

Delivery backbone

The GuideLiner is available in three sizes:

5-in-6 (0.056" I.D.) — Model 5571

6-in-7 (0.062" I.D.) — Model 5572

7-in-8 (0.071" I.D.) — Model 5573

The GuideLiner's rapid exchange design allows deployment through the existing Y-adapter without limiting the effective length of devices used in the intervention

VSIMDT00027344

GuideLiner™ Catheter

The GuideLiner catheters are intended to be used in conjunction with guide catheters to access discreet regions of the coronary and/or peripheral vasculature, and to facilitate placement and exchange of guidewires and other interventional devices.

Ordering Information*					
Model	Size	Guide Catheter Compatibility	GuideLiner I.D.	Rapid Exchange Length	Working Length
5571	5-in-6	6F I.D. ≥ 0.070 " (1.78mm)	0.056" (1.42mm)	20cm	135cm
5572**	6-in-7	7F I.D. ≥ 0.078 " (1.98mm)	0.062" (1.57mm)	20cm	135cm
5573**	7-in-8	8F I.D. ≥ 0.088 " (2.24mm)	0.071" (1.80mm)	20cm	135cm

*Packaged in quantities of 1 unit per box.
