Vascular
SOLUTIONS

To: Dr. Doug Fraser, Manchester Heart Centre, Manchester, United Kingdom
From: Joan Will, Director of Marketing Communications
Date: December 3, 2009
Subject: Testimonial Authorization

I hereby grant permission to Vascular Solutions, Inc. to quote the comments made by me regarding the Vascular Solutions' products listed below. My quoted comments may be included in any of Vascular Solutions' materials, including advertisements, websites, direct mailings, or other promotional materials for its products and accessories. The comments may be edited by Vascular Solutions to fit the available space in the document so long as the substantive meaning of my comments is unchanged.

This authorization shall continue unless and until I provide written notice of revocation of this authorization to the Director of Marketing Communications of Vascular Solutions at the address set forth below.

<i>Signature</i>	D.G.W. Fraser
<i>Name (printed)</i>	D G W Fraser
<i>Date</i>	9 / 12 / 09
<i>Vascular Solutions' Product</i>	GuideLiner™ Catheter

Quotation as follows:

“Deep intubation of the GuideLiner catheter within a soft 6F guide provides better backup support and is less traumatic than using stiff 7F and 8F guides that were previously required in complex disease. Furthermore, the soft and very flexible tip will often cross tortuous disease where a stent gets stuck, enabling delivery of stents and other equipment directly to the target lesion. The GuideLiner is as easy to insert as a standard rapid exchange balloon catheter and has quickly become a routine part of my angioplasty practice.”
