Conduct of the Proceeding
37 C.F.R. § 42.5

¹ This Order applies to both listed cases. The parties may not use this style heading unless authorized.

On June 11, 2020, in an email (Ex. 3001), Petitioner requested authorization to file a motion to submit supplemental information pursuant to 37 C.F.R. § 42.123(a). Petitioner identifies the supplemental information as:

- 1) Code V Designer's Manual: System of Optical Design Programs, 2nd ed., Optical Research Associates (1978) (Ex. 1014);
- 2) Excerpts of the Code V Reference Manual, Version 7.60, Optical Research Associates (Feb. 1994) (Ex. 1015);
- 3) "A Technical Overview of CODE V Version 7" by Bruce R. Irving of Optical Research Associates, Proceedings Volume 0766 of the Society of Photo-Optical Instrumentation Engineers (SPIE), Recent Trends in Optical Systems Design and Computer Lens Design Workshop (1987) (Ex. 1016); and
- 4) A supplemental declaration from Petitioner's expert (Ex. 1017) that authenticates the above three additional pieces of evidence and notes that they corroborate his opinion in his original declaration that the Code V lens design software would render the same results in 2001 as it did at the time of his declaration.

Ex. 3001. Petitioner also represents that Patent Owner "do[es] not oppose Petitioner's motion to submit the above-referenced exhibits." *Id.* (emphasis omitted).

Petitioner's unopposed request for authorization to file a motion to submit supplemental information is granted. Petitioner shall file its motion, limited to five (5) pages, within seven (7) days of this Order. Patent Owner is also authorized to file a reply, if desired, limited to five (5) pages, within seven (7) days of Petitioner's motion. Filing of exhibits, including those identified above, is **not** authorized at this time.
