**II. THREE PGR PETITIONS ON THE ‘553 PATENT ARE NOT
NECESSARY1**

III. CONCLUSION5

PGR2019-00042
Patent 10,003,553

Paper No. 12

I. INTRODUCTION

On the August 19, 2019 Board Order, Patent Owner submits this same response in all the three proceedings of Post Grant Review of U.S. Patent No. 10,003,553 (“the ‘553 patent”): PGR2019-00037 (Paper 1, “Petition 1”), PGR2019-00040 (Paper 1, “Petition 2”), and PGR2019-00042 (Paper 1, “Petition 3”).

II. THREE PGR PETITIONS ON THE ‘553 PATENT ARE NOT NECESSARY

Patent Owner is confused. As clearly shown in Patent Owner’s Preliminary Responses, the ‘553 patent is PGR-ineligible in view of prior decisions of the Board. Nevertheless, Patent Owner responds as follows.

1. In order to avoid duplication of effort by the Board, Patent Owner hereby states that his response to the Board’s August 19, 2019 Order in each of Cases PGR2019-00037, PGR2019-00040, and PGR2019-00042 is identical. Hence, the Board needs to review only one of Patent Owner’s responses filed in the Petitions to glean the Patent Owner’s response to the Board’s August 19, 2019 Order.

2. It appears clear that Petitioner to the Board’s August 19, 2019 Order used its responses to delve into the merits of each of the petitions. Patent Owner understands that such a maneuver was inappropriate, since Petitioner was not permitted to respond to Patent Owner’s Preliminary Responses to Petitioner’s Petitions on the issue of purportedly PGR-eligibility. Patent Owner strongly objects to Petitioner’s arguments purporting to support the merits of its Petitions in

Paper No. 12

its responses to the Board's August 19, 2019 Order arguing, for example, on page 1 that Petitioner "...requests that the Board institute all three petitions" and "...all three petitions are meritorious and justified as explained below...."

3. Patent Owner maintains his position that Petitioner's Petitions should be dismissed because the '553 patent which claims priority to pre-AIA applications is clearly PGR-ineligible as fully set forth in Patent Owner's Preliminary Responses filed on June 26, 2019 in response to Petitioner's Petitions.

4. Nothing in this response by Patent Owner should be considered as an admission or a waiver of any of the substantive responses in Patent Owner's Preliminary Responses to Petitioner's Petitions showing PGR-ineligibility.

5. Without prejudice to his arguments that the '553 patent is PGR-ineligible, in response to Petitioner's arguments, Patent Owner concurs with Petitioner's "ranking," for the reason that if a PGR proceeds, which should not happen due to PGR-ineligibility, it is logical that a review of the claims of the '553 patent under 35 U.S.C. § 112 ("§ 112 ") should proceed before any assessment of the validity of the claims were to be undertaken under 35 U.S.C. § 102 ("§ 102 ") or 35 U.S.C. § 103 ("§ 103 ").

For this reason only one Petition is needed, as the claim analysis would inform the novelty and non-obviousness of the claims of the '553 patent. However, at most two Petitions would be needed, one to consider the issues under § 112 and the

PGR2019-00042
Patent 10,003,553

Paper No. 12

other to consider §§ 102 and 103 issues. But since an understanding of the claims after a § 112 analysis, including any amendment that would be made by Patent Owner, would be important to analyzing §§ 102 and 103 issues, there should be only one Petition, or at most two Petitions, but certainly not three Petitions. That would be extremely inefficient and costly and should be avoided for the reasons at the core of the Board's August 19, 2019 Order.

6. Patent Owner objects to Petitioner's contention regarding the Petitions that "...the patent owner has asserted a large number of claims in litigation."¹ See, page 2 of Petitioner's Notices to the Board's August 19, 2019 Order. Here, there is one patent, the '553 patent, only three independent claims, and a total of only 20 claims, which required only the basic USPTO application fee when the application for the '553 patent was filed. The table on page 1 of Petitioner's Notices to the Board's August 19, 2019 Order shows that there are only 20 claims challenged under § 112 and only 17 claims challenged under §§ 102 and/or 103. In fact, Petitioner admits that there are only 20 claims at issue. See, page 3, line 2 of Petitioner's Notices to the Board's August 19, 2019 Order ("Petitioner challenges all twenty claims of the '553 patent under § 112.").

¹ The Petitions were filed while *Konda Technologies Inc. v. Flex Logix Technologies, Inc.*, No. 5:18- cv-07581-LHK (N.D. Cal.) was pending.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
