(52) **U.S. Cl. 713/179**

A system and method are provided for scan to confidential print job communications. The method comprises: at a source, scanning a document; accepting a password; encrypting the scanned document; transmitting the encrypted document with the password, to a network-connected printer; at the printer, accepting the encrypted document and password; accepting an access code at a local interface; comparing the access code to the password; in response to a matching the access code to the password, decrypting the document; and, printing the decrypted document. More specifically, an encryption key is derived from the password as used to encrypt the document, and the source hashes the password. Then, the encrypted document is transmitted with the hashed password. Likewise, the printer hashes the access code; compares the hashed password to the hashed access code; regenerates the encryption key from the access code; and, uses the encryption key to decrypt the encrypted document.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
