Internet Explorer 11 will have a version number that starts with 11 (for example, 11.0.9600). The version number will change based on the updates that have been installed for Internet Explorer. To see the version number and the most recent update installed, go to the **Help** menu and select **About Internet Explorer**.

Notes

- The minor version number, build number, and subbuild number may be displayed without trailing zeros. For example, version 7.00.5730.1100 may be displayed as 7.0.5730.11.
- All versions of Internet Explorer 5.0 (and later versions) that are customized with Microsoft Internet Explorer Administration Kit (IEAK) include one of the following strings after the version number. To view this information, click About on the Help menu:
 - IC = Internet content provider
 - IS = Internet service provider
 - CO = Corporate administrator
- Internet Explorer version 4.0 and later versions include an Update Versions line that lists all installed updates or hotfixes to the current version of Internet Explorer. Updates to Internet Explorer 4.01 Service Pack 2 or Internet Explorer 5.0 and later versions are listed by their corresponding Microsoft Knowledge Base article number.
- The version numbers of Internet Explorer in the list are based on the versions of Windows. The list numbers might be changed by the latest hotfix.

- The build number of Internet Explorer in the release version of Windows Vista is the same as in other versions.
- For information about the differences between version 7.00.5730.1100 and version 7.00.5730.1300 of Internet Explorer 7, visit the following Microsoft website:
