Subject: RE: IPR2020-00335-00338 & IPR2020-00485-00486
Date: Friday, July 17, 2020 7:43:32 AM

Counsel,

On July 13, 2020, we authorized Petitioner to file a Motion to Disqualify and a Motion to Seal, and we set a briefing schedule for the motions for each of IPR2020-00335, IPR2020-00336, IPR2020-00337, IPR2020-00338, IPR2020-00339, IPR2020-00485, IPR2020-00486. Petitioner now requests that we modify the ordered briefing schedule in light of developments in the related district court litigation. In particular, Petitioner below represents that “[o]n July 8, in the related district court proceeding, Judge Orrick orally granted Juniper’s motion to disqualify Dr. Almeroth and stated that a written order on this issue will soon follow.” Petitioner submits that the district court’s forthcoming written order will address many of the same issues that will be the subject of its Motion to Disqualify and that extending the briefing schedule in the IPR proceedings will allow the parties to address the district court’s written order. Petitioner represents that Patent Owner does not oppose the requested extension of the briefing schedule.

We find good cause to modify the briefing schedule and order for each of the above cited IPR proceedings that: (1) Petitioner is authorized to file a Motion to Disqualify and a Motion to Seal within one week after issuance of the district court’s written order, but no later than August 3, 2020; and (2) Patent Owner’s oppositions to these motions would be due within two weeks from the filing of the motions.

Subject: IPR2020-00335-00338 & IPR2020-00485-00486

Trials:

Petitioner Juniper Networks respectfully requests an extension to the briefing schedule on the issue whether to disqualify declarant Dr. Kevin Almeroth. Patent Owner does not oppose the requested extension.

On July 8, in the related district court proceeding, Judge Orrick orally granted Juniper’s motion to

disqualify Dr. Almeroth and stated that a written order on this issue will soon follow. Because the district court's forthcoming order addresses many of the same considerations at issue in Juniper's motion before the Board, Juniper requests an extension to file its motion within one week after issuance of the district court opinion but no later than August 3. In turn, Juniper requests Patent Owner's opposition be due within two weeks from Juniper's motion.

Please find attached Judge Orrick's July 8 Minute Entry which states: "A written order granting the motion to disqualify will follow." Extending the briefing schedule in the IPR proceedings will allow the parties the opportunity to address the district court's written order and obviate the need for the parties to request authorization to file and address the order in subsequent briefing.

Best regards,
Joe Edell
Counsel for Petitioner Juniper Networks, Inc.
