CONFIDENTIAL - ATTORNEYS' EYES ONLY

I. INTRODUCTION

A. Identification of the '833 Patent and Scope of Opinion

1. My name is Dr. Jonathan Wells. I have been retained by Apple Inc. ("Apple") to investigate and opine on certain issues relating to U.S. Patent No. 8,102,833 ("833 patent").

2. I understand that Optis Wireless Technology, LLC, Optis Cellular Technology, LLC, Unwired Planet, LLC, Unwired Planet International Limited, and PanOptis Patent Management, LLC (collectively, "Optis" or "Plaintiffs") has asserted the '833 patent in litigation against Apple in *Optis Wireless Technology, LLC et al. v. Apple Inc.*, Case No. 2:19-cv-00066-JRG (E.D. Tex.) ("the Litigation"). In the Litigation, Optis has asserted claims 1 and 8 of the '833 patent ("the Asserted Claims").

3. Specifically, I have been asked to determine if any or all of the claims of the '833 patent are invalid based on, among other things, 35 U.S.C. §§ 103 and 112. In this report, I explain the manner in which the prior art, known before the applicable priority date of the '833 patent, discloses each limitation of the Asserted Claims, and I explain how the known prior art would render the asserted claims obvious to a person of ordinary skill in the art at the time the inventions were made.

4. To support my opinions, I have further been asked to provide an overview of the technology. In this report, I will discuss the technology related to the '833 patent, including an overview of that technology as it was known at the time of the '833 patent's priority date.

5. I have based my report on information currently available to me. To the extent that additional information becomes available, I reserve the right to continue my investigation and study, which may include a review of documents and information that recently have been or may be produced, as well as testimony from depositions that may yet be taken in this case. I

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
