IT MAKES A BOLD STATEMENT WITHOUT UTTERING A WORD

The designers at Hyundai haven't exactly been playing it safe when it comes to the new Tucson. They've unveiled it at the world's premier auto shows over the past few years, and it's been dropping show-stoppers.

The new, totally redesigned 2010 Hyundai Tucson is a class leader in many ways. It's a class that's been exercising.

Tucson's new look is sleek and aggressive, with sculpted hood and roofline, and an available panoramic sunroof. But it's what's inside that really counts. Whether it's headroom and legroom for you and your passengers, or storage space for your plans, Tucson is surprisingly spacious inside.

After they created all that space, our designers filled it with advanced features. Like six standard airbags, standard Electronic Stability Control, and ABS aided by Brake Assist and Electronic Brake-force Distribution. And our engineers gave Tucson a 2.4L Theta 2 engine delivering up to 24 city/31 highway mpg. And under it all, there's a lot more.
