Front Driver Side Fender (GM1240402C) by Replace®.

Galvanized Steel. Vehicle fenders are important components which shield your vehicle from mud, debris, and water. While in service they may suffer from harmful UV rays or hail, rocks or debris, shopping carts, etc. To replace your damaged parts, get these premium fenders by Replace. They are identical to OE in fit, form, and function. Crafted from excellent materials, the fenders guarantee a long lifespan.

Features:

- Direct replacement
- Designed with the latest software and manufactured with modern tooling
- Same quality as OE for less
- Same dimensions as factory unit
- Can be installed like OE part
- Backed by a limited lifetime warranty

Fenders protect the braking system and other essential parts located near the wheel well from rocks, gravel, mud, and other

debris you might kick up while driving. Positioned as leading edges of the auto, fenders are more vulnerable to damage than most other body panels. They can become dinged, chipped, scratched, etc. UV rays, hails, and extreme temperatures can also shorten the life of your fenders. A new fender from the dealer can be very expensive, but you don't have to let the high dealer price unduly lighten your wallet or keep you from making the repair. Instead, get these OE quality fenders at budget-friendly prices.

Meticulously engineered to meet OE standards, Replace fenders are identical in specifications to your vehicle's factory fenders - they ensure the same fit, form, and function. So, if you want to make your auto look new again, this Replace product is just the option. The fenders are manufactured from the highest grade materials using modern tooling to provide uncompromising reliability that you are after. In addition, Replace fenders are covered by a limited lifetime warranty against defects in materials and workmanship for as long as the original purchaser owns the vehicle on which the part is installed.

Replace® is dedicated to providing original equipment (OE) quality body parts and lights without the high OE price. Rather than deal with so-called "universal" parts that may or may not fit your vehicle, Replace sells only parts that have OE quality fit, function and appearance. They believe such parts should be affordable so you can repair your vehicle to its former state, restoring your pride of ownership and preserving its resale value. With Replace parts you can just say no to high dealer prices.
