Summary				<p>of any alleged infringement by Ice River so they prepare no defense. However, Ice River has already received an answer to this question. Plastipak avers that it first became aware of infringement upon receipt of the August 28, 2019 testing report and has produced that report and the bottle that the report relates to. Ice River contends that Plastipak must possess more discoverable material and states that Ice River is "suspicious" of the thoroughness of Plastipak's response. Therefore, Ice River seeks an order to compel Plastipak "to search for and produce all non-privileged and responsive documents in its possession, custody, or control." Where, as here, Plastipak's counsel have certified that they have performed their search in a reasonably diligent manner, and the result of this search has provided Ice River an answer to the question it posed, Ice River is not entitled to a further order.
