Subject: New table for agents

Alex,

I propose the next table to be used by webley agents.
Could you please review it and pass it to Alex to create it?
Thank you.

Valery

```
SETUSER 'dbo'  
go
```

```
create table dbo.mcVoiceData (  
  sessionId int not null, // ID of voice session  
  timeStamp int null, // time of session beginning  
  row int not null, // row number to order by  
  type varchar(10) not null, // type of row (link, text, phone, etc. )  
  data varchar(255) null, // url, phone number, e-mail address, and other internal data  
  data2 varchar(255) null, // additional storage for data  
  text text null, // text to read to user that describes the data  
  
  object varchar(255) null, // original object on html/wml page  
  locaton varchar(255) null, // location of the object within the page  
  objectId varchar(255) null // object id (name, etc.)  
  
  )  
lock allpages  
on 'default'  
go
```

```
print 'index01'  
create unique nonclustered index index01  
on dbo.mcServices (sessionId)  
with ignore_dup_key  
on 'default'  
go
```

```
print 'index02'  
create unique nonclustered index index02  
on dbo.mcServices (row)  
with ignore_dup_key  
on 'default'  
go
```

```
grant Delete on mcVoiceData to public  
go
```

```
grant Insert on mcVoiceData to public
```

Parus Exhibit 2057

go

grant Select on mcVoiceData to public

go

grant Update on mcVoiceData to public

go

SETUSER

go
