Subject: IPR2020-00905 and IPR2020-00906 - request to expunge mistaken filings

Dear Honorable Board,

I represent patent owner Corephotonics in IPR2020-00905 and IPR2020-00906.

Due to clerical error, incorrect versions of patent owner Corephotonics' preliminary responses were filed on August 13, 2020 in each of these two IPRs. The incorrect documents were filed as Paper 7 in each IPR. The error was identified immediately, and correct versions of each preliminary response were filed timely and appear as Paper 8 in each IPR.

To avoid confusion, Corephotonics wishes to have the incorrect filings expunged in each case. We have asked counsel for Apple whether Apple opposes expunging these documents, and they have indicated that Apple will not take a position one way or another on this issue.

We request the Board's guidance on the procedure for expunging these documents (Paper 7 in each of IPR2020-00905 and IPR2020-00906). To the extent that a formal motion to expunge is required, we request leave to file such a motion.

Best regards,

Neil A. Rubin
