IPR2020-01138 (Patent 8,382,186 B2)

IPR2020-01140 (Patent 8,833,834 B2)

BACKGROUND

The Board has not yet rendered a decision on whether to institute review in these proceedings.

On November 13, 2020, and at the panel's request, a conference call was held with the parties to discuss further briefing in *related* proceedings IPR2020-01138 and IPR2020-01140.

During the call, Petitioner requested permission to address arguments raised by Patent Owner in Patent Owner's preliminary response. In particular, Petitioner requested permission to address Patent Owner's priority and claim construction arguments.

Patent Owner opposed Petitioner's request, arguing that insufficient cause exists to permit additional briefing.

Having considered Petitioner's and Patent Owner's positions, we find that sufficient cause exists, and authorize Petitioner to file a reply brief to address Patent Owner's claim construction and priority arguments.

37 C.F.R. § 42.20(d). We also authorize Patent Owner to file a sur-reply brief.

ORDERED that, in each proceeding, Petitioner is authorized to file a reply brief of no more than five (5) pages, if filed on or before November 20, 2020, to address Patent Owner's claim construction and priority arguments;

FURTHER ORDERED that, in each proceeding, Patent Owner may file a sur-reply brief of no more than five (5) pages, if filed on or before November 30, 2020, and if limited to arguments raised in the reply brief;

FURTHER ORDERED that neither party is authorized to file additional evidence with their respective briefs; and
