

WEATHERBOOTS®

CUSTOM MOLDED ABS FOOTWELL LINERS COMPLETE YEAR ROUND CARPET PROTECTION

Thermoformed from UV resistant ABS plastic, are designed to fit each particular vehicles interior floor area. Not just another set of floor mats, they give your vehicles carpeting the **absolute best protection available . . . bar none.** Others may claim they protect your carpet, but dirt, water, etc., can go over the edge and still get on the interior, or be spilled when removing from the vehicle, not so with "WEATHERBOOTS", they take the debris, whatever it is, over the door sill and out, (On Most Models). . . . **No other product available does this.** Also remember, most 4x4's and SUV's are a little higher to step into. "WEATHERBOOTS" have no edges to catch your foot on as you enter and exit the vehicle. The material used has a dull black finish with a slight grain effect which hides scratches and provides a soft appearance. All surfaces your feet come in contact with are covered with a water-proof pressure sensitive adhesive backed all-weather carpeting, providing a plush feel while still maintaining ease of cleaning. Can be hosed off or just removed and dumped out.

This model for the Ford Super Duty Series is an example of the total coverage and complete protection offered by the "WEATHERBOOTS".

Anyway you look at it "WEATHERBOOTS" do the best job of protecting your vehicle's carpeting. Velcro® provided on the bottom and along the door sill edge help to hold the product in place, **no slipping or sliding around the floor.**
