

Who Owns WeatherTech?

WeatherTech is 100% owned by its Founder and CEO David MacNeil. Founded in 1989, Mr. MacNeil started WeatherTech out of his home in Clarendon Hills, Illinois. Dissatisfied with the quality of existing automotive floor mats, WeatherTech began with importing the mats directly from England. However, Mr. MacNeil was convinced that he could create a better product right here in America, using American workers. So, in 2007 he made the decision to move production of his entire line of automotive accessories to America, opening facilities within the suburbs of Chicago.

WeatherTech Founder & CEO David MacNeil with his best friend Scout

Since then, WeatherTech has expanded operations significantly. Opening new facilities, developing new and innovative products and creating jobs for Americans from every walk of life. WeatherTech and Mr. MacNeil are dedicated to investing in American manufacturing and the American economy. We build, buy and hire American... Isn't this the way it's supposed to be?
