### **Contents**

Welcome	
Getting the data files	
The POLYWORKS/MODELER SUITEPolyWorks Basics	
1 – Starting PolyWorks' modules	
2 – Interface basics	
3 – Visualization in IMAlign, IMEdit, and IMView	
4 – Positioning scans/polygonal models using the mouse	
Polyworks/Modeler V8 Overview (Schema)	
Step #1 - IMAlign	
IMAlign basics	
1 - The Block Project - Getting ready	
2 - Aligning the scans manually	
2.1 Load the scans	
2.2 Hide bad/irrelevant data points from IMAlign processes	
2.3 Lock one image and ignore the rest	
2.4 Manually align 3D images one at a time	22
3 - Optimize the global image alignment	26
4 - Analyze the alignment results	27
5 - Remove redundant points (optional)	28
6 - Save the IMAlign group	28
7 - Exit IMAlign	28
Comments	29
Step #2 - IMMerge	31
IMMerge basics	
1 - The Block Project	35
1.1 Calculating parameter values	35

1.2 Creating the polygonal mesh from an IMAlign group	. 35
Comments	. 37
Step #3 - IMEdit	39
IMEdit basics	
Triangle & vertex selection	. 41
1 - The Block Project - Getting started	
2 - Fill holes	. 47
2.1 Clean the holes	. 48
2.2 Fill holes automatically	. 48
2.3 Fill complex holes using a composite Bézier surface	. 49
3 - Optimize the mesh	. 52
3.1 The Optimize Mesh window	. 52
3.2 Optimizing the mesh	. 53
4 - Extract edge and tangent curves	. 57
5 - Reconstruct a corner	. 59
6 - Reduce the edited mesh	
6.1 The IMCompress window	
6.2 Reducing a selected group of triangles	
7 - Generate Cross-Sections	
8 - Subdivide the mesh	
9 - Export the edited polygonal model	
10 - Save the IMEdit editing project	
11 - Get ready to start a new project	
12 - Create fitted NURBS surfaces	
12.1 Create the boundary curves	
12.2 Create curves from pairs of user-picked points	
12.3 Create additional curves by picking on the model	
12.4 Create the curve network from a set of curves	
12.5 Create NURBS surfaces fitted on a curve network	
12.6 Evaluate the resulting NURBS surfaces	
13 - Export the fitted NURBS surfaces	
14 - Save the IMEdit editing project	
15 - Exit IMEdit	
Glossary	. 75 75

## Welcome...

To this PolyWorks/Modeler V8.0 Beginner's Guide. It will provide you with a hands-on experience that:

- ✓ Is goal oriented we give you the scans and polygonal models and you do the work.
- ✓ Uses a step-by-step approach.
- ✓ Has fast forward possibilities intermediate files are supplied at all major points.
- ✓ Adds expert comments to round up your learning experience.
- ✓ Provides **video segments** that show you the execution of the steps that you will do manually. These video segments are available through the PDF version of this Beginner's Guide, which can be accessed under the Help item on the main menu of the IMAlign and the IMEdit modules.

## Before you start...

#### You will benefit from:

- ✓ Our product presentation page 8.
- ✓ An introduction to working with PolyWorks page 9.
- ✓ A visual PolyWorks/Modeler process overview page 13.

## At a glance...

The exercises included in this Beginner's Guide present the following tools:

- ✓ **IMAlign** overview pages 15 30.
- ✓ **IMMerge** overview pages 31-38.
- ✓ **IMEdit** overview pages 39-76.

# DOCKET

## Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

### **Real-Time Litigation Alerts**

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

#### **Advanced Docket Research**

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

#### **Analytics At Your Fingertips**

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

#### API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

#### **LAW FIRMS**

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

#### **FINANCIAL INSTITUTIONS**

Litigation and bankruptcy checks for companies and debtors.

#### **E-DISCOVERY AND LEGAL VENDORS**

Sync your system to PACER to automate legal marketing.
