Subject: Megunticook

Just heard from Megunticook.

At their Board meeting yesterday they approved going ahead with a meeting between us and Data TV Networks. The meeting is scheduled for Monday at Megunticook's offices in Boston at 2:00 PM. This is the first step in securing an investment.

We should think about how we want to present our product, and what a potential relationship with Data TV Networks would be.

It would be good if everyone could organize their thoughts - maybe in writing - and then lets meet.

Told them Milton and I would attend. From their end, Grant Gund, and the CEO and VP Distribution of Data TV Networks.

Grant reiterated that a relationship is contingent on our being funded (told him we had secured a lead investor) and their comfort with the fact that we had a working product. I think we can satisfy them on a working product. It's all just timing.

Tim
