Subject: One more document

Hi Len,

Just one more document that may be helpful for you. This is the electronic version of the flow-chart which Milton passed on to you in the meeting.

2. comm-webflow-04-20-04b.vsd - A visio document where we have begun to spec out the user flow and elements for the Web UI functionality of the "Community Classified" application

I am also available to give you and/or Boris a brief walk-through of the Navic console so that we can construct a (static) screen and look at where the Java Servlet would hook up with the MPEG I-frame and draw through dynamic text and images. Feel free to contact me to set this up, it shouldn't take more than 20 minutes.

Best,
Nicole
