## Handbook for the Palm VII<sup>™</sup> Organizer

Palm.Net Discontinued: The Palm.Net service is discontinued as of August 31, 2004. Any information in this manual pertaining to Palm.Net, PQAs (web clipping applications), MyPalm and the WAP Browser is not applicable after that date. For wireless email and web browsing, we recommend you migrate to a palmOne smartphone.

We can help you do this: <u>Click here</u> to learn how to upgrade to a new solution.

### 3.5" Software Diskettes Available

Palm<sup>™</sup> Desktop organizer software is supplied on a CD-ROM disc. If you do not have access to a CD-ROM drive for your computer, you may download the Palm Desktop software from http://www.palm.net. Alternatively, you can order 3.5" diskettes by completing and mailing the diskette order card supplied in the Palm VII<sup>™</sup> connected organizer product package, or call to order the diskettes. See the *Getting Started* guide for the appropriate phone number.

### **Chapter 3: Managing Your Applications**

Using the Applications Launcher	
Selecting applications	45
Switching between applications	
Categorizing applications	
Changing the Applications Launcher display	
Choosing preferences	
Installing and removing applications	
Installing add-on applications	
Installing games	
Removing applications	51
Removing Palm Desktop software	
Security	53
Assigning a password	53
Changing or deleting a password	54
Locking your organizer	54
Recovering from a forgotten password	55

### **Chapter 4: Using Your Basic Applications**

Overview of basic applications5	
Date Book5	8
Address Book	9
To Do List6	0
Memo Pad6	1
Calculator6	1
Expense6	2
Common tasks	
Creating records6	3
Editing records6	3
Deleting records	5
Purging records	
Exchanging and updating data: HotSync operations	7
Categorizing records	
Finding records7	3
Sorting lists of records7	7
Making records private7	
Attaching notes	
Choosing fonts	1

Application-specific tasks	
Date Book	
Address Book	
To Do List	
Memo Pad	
Calculator	
Expense	

### Chapter 5: Query Applications and the iMessenger™ Application

Your organizer is a wireless device	121
Web clipping: query applications	121
Wireless Internet messaging: the iMessenger application	124
The Palm.Net wireless communication service	124
Improving signal strength	127
Using query applications	128
Opening query applications	129
Working with query applications	130
Query application menus	137
Using the iMessenger application	138
The iMessenger application differs from the Mail applica	ition138
Opening the iMessenger application	139
Checking for and viewing messages	140
Opening and reading messages	141
Creating messages	146
Rerouting replies to your messages	150
Adding a signature to your message	151
Sending messages	151
Editing an unsent message	152
Draft messages	153
Filing a message	154
Deleting messages	155
Removing a message from the Deleted folder	155
Purging deleted messages	
Options for the iMessenger List screen	156
Your Palm.Net mailbox	
The iMessenger application and HotSync operations	159
iMessenger menus	159

### **Chapter 6: Managing Desktop E-Mail and Beaming Information**

Managing desktop E-Mail away from your desk	163
Setting up Mail on the desktop	164
Synchronizing Mail with your E-Mail application	166
Opening the Mail application on your organizer	
Viewing e-mail items	166

### DOCKET A L A R M

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

### **Real-Time Litigation Alerts**

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

### **Advanced Docket Research**

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

### **Analytics At Your Fingertips**

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

### API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

### LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

### FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

### E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
