Subject: Re: Patent Update

Thanks, Milton, for the update. Just to let you know, Thursday, April 29, is my last day in the office this week, then I'll be traveling to Korea all the following week, and returning by May 10. If May 1 is still BBiTV's launch date, then you should try to get me your final materials no later than Tuesday morning, April 27. If the launch date has been delayed into the late May, then you can take additional time to perhaps capture some of the detailed specs from the dev team on the community content system, and we can work together to finalize the application and file it sometime after May 10.
