# GuideLiner™ Catheter

provides a rapid exchange

## THE PROBLEM

Guide catheters can back-out when resistance is met while advancing a catheter or wire in challenging interventions

VSIMDT00027343

# Large guide extension for added back-up support

## THE SOLUTION

The GuideLiner provides an extension of the guide for deep seating and added back-up support

Delivery backbone

The GuideLiner is available in three sizes:

5-in-6 (0.056" I.D.) — Model 5571

6-in-7 (0.062" I.D.) — Model 5572

7-in-8 (0.071" I.D.) — Model 5573

The GuideLiner's rapid exchange design allows deployment through the existing Y-adapter without limiting the effective length of devices used in the intervention

# GuideLiner™ Catheter

The GuideLiner catheters are intended to be used in conjunction with guide catheters to access discreet regions of the coronary and/or peripheral vasculature, and to facilitate placement and exchange of guidewires and other interventional devices.
