Subject: RE: FG SRC, LLC v. Intel Corporation (6:20-cv-00315-ADA)

Counsel,

I neglected to raise this during my pre-CMC emails, but the Court has started a new practice of setting the estimated trial date at the CMC. Given the number of patents, the Court will set the trial date for November 8, 2021. To the extent that the parties would like to move the trial date (to an earlier or later date), please feel free to raise that at the Markman hearing.

-Josh

Subject: FG SRC, LLC v. Intel Corporation (6:20-cv-00315-ADA)

Counsel,

By way of introduction, I am Judge Albright's patent clerk.

A couple of notes regarding the telephonic Case Management Conference on July 30 for this case:

1. Please be aware that there are several telephonic CMCs going on back-to-back that day. So to prevent interrupting the previous CMC, please wait until your case is announced before speaking.
2. The Court believes that a 0.5 day Markman may be appropriate. If you believe that you need more time, please let me know ASAP.
3. The Court has a few open half days around the default date specified in the Order Governing Proceedings (January 7): 1/7 PM, and 1/8 PM. Please confer with the other side and e-mail me the date that the parties agree to. Please let me know ASAP as the Court will reserve these dates on a first-come, first-served basis. Please also note that the Court is now double-booking Markman dates given that a significant percentage of Markman hearings are canceled based on a dismissal/settlement.
4. Attached is the Court's Procedures Regarding Technology Tutorials, Claim Construction, and Discovery Disputes.
5. If you have post-Markman issues to discuss, please let me know so the Court can determine if we need to address that issue at the CMC or if it can wait until Markman. If you have pre-Markman issues to discuss, please let me know what they are after conferring with the other side.
6. Please note that although the Court has currently scheduled several CMCs to begin at 2PM, I will follow-up with the specific call-in time for this case once I estimate how much time each CMC needs.
7. If there are no pre-Markman issues and the parties agree to a Markman date, then there is no need to have this CMC, so the Court will cancel it. Similarly, if I don't hear from you, I will assume that there are no issues to discuss, pick a Markman date, and cancel the CMC.

If you have any questions, please let me know. Thanks.

-Josh

Joshua J. Yi, Ph.D.

Law Clerk to the Honorable Alan D Albright

United States District Court

Western District of Texas
