Dear Director,

Patent Owner Aker BioMarine Antarctic AS has filed a Request for Director's Review of the Final Written Decision in IPR2020-01533 in the PTAB E2E portal. A copy has been electronically served on opposing counsel and opposing counsel is copied in this communication.

There is one issue raised in the Request:

Whether the Board committed error by finding the claims unpatentable over a sub-combination of references that was different from the combination of references as stated in the Identification of

Statutory Grounds in the Petition and as instituted in the Institution Decision.

Regards,

Mitchell Jones, J.D., Ph.D.
