Re: Masimo Corporation et al. v. Apple Inc., Case No. 8:20-cv-00048 (C.D. Cal.)

Dear Counsel:

We write regarding petitions for *inter partes* review (IPR) being filed with the Patent Trial and Appeal Board (PTAB) to address claims of U.S. Patent No. 10,588,554. The table below lists grounds asserted by Apple in IPR petitions challenging claims of this patent, along with the implicated claims against which each ground is asserted. We write to inform you that Apple hereby stipulates that in the event the PTAB institutes an *inter partes* review including a ground listed in the table against the corresponding claims listed in the table for that ground (“Instituted Ground”), Apple will not assert that Instituted Ground against the corresponding claims listed in the table for that ground in the above captioned litigation (8:20-cv-00048).

Patent No.	Proceeding No.	Claims	Grounds
10,588,554	IPR2020-01538	1-7 and 20-28	Mendelson-799 in view of Ohsaki, Schulz, and Mendelson-2006
	IPR2020-01539	1-7 and 20-28	Aizawa in view of Inokawa, Ohsaki, and Mendelson-2006
		8-19	Aizawa in view of Inokawa, Ohsaki, Mendelson-2006, and Bergey

In so stipulating, Apple seeks to avoid multiple proceedings addressing the validity of these claims based on the Instituted Grounds. Rather, consistent with Congressional intent, through this stipulation, Apple expresses its intention to have only the PTAB address the

Instituted Grounds of invalidity of these claims. But, for the sake of clarity and to avoid any doubt, if the PTAB declines to institute any of the grounds identified herein, Apple reserves the right to assert such grounds in this litigation. Additionally, even in the event of institution, Apple reserves its rights to continue to assert all grounds other than Instituted Grounds.

Sincerely,
