SAMSUNG ELECTRONICS CO. LTD., SAMSUNG ELECTRONICS  
AMERICA, INC., AND APPLE, INC.,  
Petitioner,

v.

NEONODE SMARTPHONE LLC,  
Patent Owner.

---

Case IPR2021-00144  
Patent 8,095,879

**EXHIBIT 2022**  
**DECLARATION OF ULF MARTENSSON**

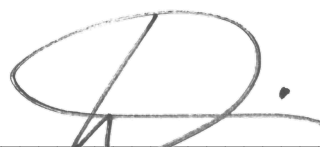

1. I, Ulf Mårtensson, declare as follows:
2. I am over 18 years of age and, if I am called upon to do so, I would be competent to do testify as to the matters set forth herein.
3. I have been employed by Neonode as its Director of Manufacturing, from September 2006 through December 2008, and as its Executive Vice President, Operations, from September 2012 and ongoing. currently, among my job functions is to serve as the company's custodian of records.
4. Attached hereto are true and correct copies of the following documents:  
  
EXHIBIT 2025: Excel Spreadsheet documenting Neonode shipments.  
  
EXHIBIT 2028: Research & Development and License Agreement between Neonode and Samsung Electronics Co., Ltd., effective July 13, 2005.
5. I am familiar with Exhibits 2025 and 2028. Exhibits 2025 and 2028 are records that were produced by Neonode officers and employees who at the time had personal knowledge of the matters stated in them. They were intended to be relied upon by Neonode and third parties, and thus were intended by Neonode to be accurate and reliable. They were kept by Neonode in the course of regularly conducted business activity in soliciting investment in the company, and in

marketing, promotion, and sales of Neonode's products. Exhibits A and B were made in the regular course of those activities.

6. I have reviewed Exhibit 2025. Neonode began commercial sales of the N1 mobile handset in early 2004, it released the N2 in 2007, and sales of the N1 and N2 ended after Neonode's mobile handset manufacturing entity filed for bankruptcy in 2008. The Excel spreadsheet documents sales of 9,640 units of the Neonode N2 phone. In addition, Neonode sold approximately 8,000 units of N2 phone to a network operator in India. Furthermore, Neonode sold approximately 5,000 units of the N1 phone. So in all, Neonode's records presently available document approximately sales of approximately more than 20,000 N1 and N2 phones.

7. I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct, that all statements made herein of my knowledge are true, and that all statements made on information and belief are believed to be true, to the best of my recollection, and that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code.
