D. Summary of my Opinions .....	14
VI. THE ‘993 PATENT.....	14
A. Priority Date. ....	14
B. Level of Skill Ordinary in the Art.....	14
C. Claim Construction.....	15
VII. DETAILED EXPLANATION OF PATENTABILITY.....	15
A. Claim 1 is not Rendered Obvious by the combination of Hisatomi in view of POSA Knowledge and/or Ren. ....	16
1. Hisatomi does not disclose a “ <i>tap-present state</i> ” wherein “ <i>a plurality of tap-activatable icons [...] are present, each [...] being activated in response to a tap on its respective icon.</i> ” .....	17
2. There would have been no motivation at the time of invention to modify Hisatomi with either POSA knowledge of tap or Ren. ....	29

3.	Hisatomi does not disclose a “ <i>user interface comprising at least two states, namely, (a) a tap-present state ... and (b) a tap-absent state.</i> ”	35
4.	Hisatomi does not disclose “ <i>icons for a respective plurality of pre-designated system functions, each system function being activated in response to a tap on its respective icon.</i> ”	37
B.	Claim 1 is not rendered obvious by Hansen in view of Gillespie	39
1.	Hansen does not disclose “ <i>a processor of an electronic device having a touch-sensitive display screen.</i> ”	40
2.	Hansen does not disclose a “ <i>tap-present state</i> ” wherein “ <i>a plurality of tap-activatable icons [...] are present, each [...] being activated in response to a tap on its respective icon.</i> ”	46
3.	Hansen does not disclose a “ <i>user interface comprising at least two states, namely, (a) a tap-present state ... and (b) a tap-absent state.</i> ”	51
4.	Hansen does not disclose “ <i>icons for a respective plurality of pre-designated system functions,</i> ” “ <i>each system function being activated in response to a tap on its respective icon.</i> ”	52

1. I, Craig Rosenberg, Ph.D., declare as follows:

## I. INTRODUCTION

2. I have been retained by Neonode Smartphone LLC (“Respondent”) as an independent expert consultant in this *inter partes* review (“IPR”) proceeding before the United States Patent and Trademark Office (“PTO”).

3. I have been asked by Respondent’s counsel (“Counsel”) to consider whether certain references cited by Samsung and Apple (“Petitioners”) in combination render Claim 1 of U.S. Patent No. 8,812,993 (“the ‘993 Patent”) obvious (EX1001). My opinions and the bases for my opinions are set forth below.

4. I am being compensated at my ordinary and customary consulting rate for my work, which is \$450 per hour. My compensation is in no way contingent on the nature of my findings, the presentation of my findings in testimony, or the outcome of this or any other proceeding. I have no financial interest in this proceeding.

## II. QUALIFICATIONS

5. All of my opinions stated in this declaration are based on my own personal knowledge and professional judgment. In forming my opinions, I have relied on my knowledge and experience in human factors, user interface design, user interaction design, human-computer interaction, and software engineering.

6. I am over 18 years of age and, if I am called upon to do so, I would be competent to testify as to the matters set forth herein. My qualifications to testify about the '993 patent and the relevant technology are set forth in my curriculum vitae ("CV"), which I have included as EX2002. In addition, a brief summary of my qualifications is included below,

7. I hold a Bachelor of Science in Industrial Engineering, a Master of Science in Human Factors, and a Ph.D. in Human Factors from the University of Washington School of Engineering. For 30 years, I have worked in the areas of human factors, user interface design, software development, software architecture, systems engineering, and modeling and simulation across a wide variety of application areas, including aerospace, communications, entertainment, and healthcare.

8. I graduated from the University of Washington in 1988 with a B.S. in Industrial Engineering. After graduation, I continued my studies at the University of Washington. In 1990, I obtained an M.S. in Human Factors. In 1994, I graduated with a Ph.D. in Human Factors. In the course of my doctoral studies, I worked as an Associate Assistant Human Factors Professor at the University of Washington Industrial Engineering Department. My duties included teaching, writing research proposals, designing and conducting funded human factors experiments for the National Science Foundation, as well as hiring and supervising

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
