United States Patent [19]

Date of Patent: Sep. 9, 1997 Zagar [45]

[11]

[54] SYNCHRONOUS NAND DRAM ARCHITECTURE

[75] Inventor: Paul S. Zagar, Boise, Id.

[73] Assignee: Micron Technology, Inc., Boise, Id.

[21] Appl. No.: 615,527

[22] Filed: Mar. 11, 1996

ABSTRACT

An integrated circuit memory device has two banks of NAND structured memory cells and a clock input for synchronously latching control, address and data signals. Time delays of sequentially accessing and restoring memory bits in the NAND structure are masked through the use of the dual bank architecture and synchronous timing. The NAND structured memory cells provide an extremely dense memory array for a high capacity memory device. The input clock signal driving a synchronous word line generator provides a simplified high speed access to the array. A set of random access storage registers temporarily store data from the array and provide high speed page access to an entire page of data from each bank of the memory. The ability to access one bank while simultaneously opening or closing a row in the other bank allows for an unlimited number of high speed sequential data accesses.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
