Preliminary Constructions:

Claim Terms for Patent No. 7,068,684

Claim Term	Plaintiff's Construction	Defendant's Construction	Court
"A data server coupled to the hub." claims 29, 36, 37	Plain and ordinary meaning; no construction necessary.	"a data server wired to the hub" OR "a data server connected to the hub where the connection is a wired connection"	Plain and ordinary meaning
"Sufficiently throttling the data sent from the workstation to the telephone to increase a rate of transfer of the audio information during the communicating step" claims 29, 36, 37	Plain and ordinary meaning; no construction necessary.	"reducing the number of data packets sent from the workstation to the telephone to comply with a predetermined quality of service level of audio allowing for no discernable audio decrease in quality"	Plain and ordinary meaning
"Reducing a future amount of data from being transferred from the workstation if the amount of data exceeds a predetermined threshold" claim 36	Plain and ordinary meaning; no construction necessary.	"reducing the number of data packets to be transferred from the workstation when predetermined level of data is exceeded"	Plain and ordinary meaning

Claim Terms for Patent No. 7,123,699

Claim Term	Plaintiff's Construction	Defendant's Construction	Court
"Coupling a second LAN to the first LAN over a WAN" claim 1	Plain and ordinary meaning; no construction necessary.	"creating a dedicated connection between a second LAN and the first LAN via a WAN"	Plain and ordinary meaning
"Coupling an audio path over the channel between the telecommunications device and the voice mail box" claim 1	Plain and ordinary meaning; no construction necessary.	"creating a dedicated electrical connection for the flow of voice data between the telecommunications device and the voice mail box"	Plain and ordinary meaning
"in response to an input at the	Plain and ordinary meaning; no construction	"requesting a dedicated electrical connection	Plain and ordinary meaning
telecommunications	necessary.	between the first LAN
