Re: *GUI Global Products, Ltd., D/B/A Gwee v. Samsung Elecs. Co., Ltd., et al.*, Case No. 4:20-cv-2624 (S.D. Tex.)

Dear John:

We write regarding our on-going litigation, in which GUI Global Products, Ltd. asserts U.S. Patent No. 10,562,077 (the “’077 patent”) against Samsung Electronics Co., Ltd. and Samsung Electronics America, Inc. (together, “Samsung”).

Samsung is planning to submit a petition for *inter partes* review on claims 1-13 of the ’077 patent. By this letter, Samsung stipulates that, if the Board institutes *inter partes* review of IPR2021-00337, Samsung will not rely on any of U.S. Patent Application Publication 2010/0227642, Korean Patent Publication 10-2008-0093178, or U.S. Patent Application Publication 2010/0298032 to assert invalidity of any claim of the ’077 patent in the litigation.

Sincerely,

Jin-Suk Park
