Dear Patient

The multisonic® infraControl is a powerful ultrasound inhalation unit for preventative and therapeutic deep inhalation that reflects the latest scientific findings in this area.

However, the unit has not been designed for life-saving emergency treatment.

The multisonic® infraControl can be used at home, whilst travelling and in clinics thanks to its universal voltage supply options (mains or rechargeable battery pack).

The multisonic® infraControl effectively combines aerosol therapy with the need for safe inhalation that is environmentally friendly. Its innovative design prevents the release of medicines into the environment.

The comfort of patients was one of the main considerations in the design of the multisonic® infraControl.

- Universal usage
- Optimal penetration of tissues
- High nebuliser performance and short inhalation times
- Warming of aerosol
- Low wastage of medicines and ease of setting doses
- Simple and safe to use
- Easy to clean
- Noiseless in operation
- Modern design
- Small, easy to handle and transport
- Suitable for the nebulisation of all common inhalation solutions (see page 23 for list)

Please read the Instructions for Use carefully to ensure that the unit is used correctly. We would be happy to answer any questions you may have and would welcome your comments.
(Service tel. No. +49 367 35/4 63-0)

The basic package comprises the following components:

- 1 hand unit
- 1 nebuliser head
- 1 mouthpiece
- 1 sealing ring
- 1 baffle plate
- 1 inhalation valve
- 1 exhalation valve
- 1 metering aid
- 1 plug-in power supply unit
- 1 carrying case
- 1 set of Instructions for Use

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
