

Lenovo ThinkPad X61 Tablet PC Review

tabletpcreview.com/tabletreview/lenovo-thinkpad-x61-tablet-pc-review/

Ed Hardy

Lenovo's ThinkPad X61 has been the talk of the Tablet community since its release and after spending a few days with it, I can see why. The matte black finish and rugged feel of the X61 is right away appealing. The overall design is solid and its based on the new Intel Santa Rosa platform. It seems that the X61 has taken care of all the flaws its predecessor, the X60, had. Meaning it has better performance, benchmark results and battery life.

The Lenovo ThinkPad X61 Tablet PC specs as reviewed (tested price about \$2,100)

CPU	Intel Core 2 Duo L7500 1.6GHz
OS	Windows Vista Ultimate
RAM	2GB DDR2
Display	12.1" MultiView/MultiTouch XGA (1024×768) TFT
Graphics	Intel GMA X3100 graphics, Intel 965 Express Chipset
Audio	Integrated speakers
Hard Drive	100GB (7200 rpm)
Optical Drive	None

I/O ports	<ul style="list-style-type: none"> • 3 x USB • 1 x VGA – 15 pin • 1 x Microphone-in • 1x Headphone • 1 x PC Card • 1 x SD Card
Communications	<ul style="list-style-type: none"> • Intel PRO/Wireless 3945ABG • 10/100/1000 Ethernet • ThinkPad 11a/b/g II • WLAN and WWAN • Bluetooth
Dimensions/Weight	<ul style="list-style-type: none"> • 10.8" x 9.6" x 1.1-1.3" • 3.8lbs.
Battery/power	8-cell Lithium Ion

Design and Build

The ThinkPad X61 maintains most of the same design features as its predecessor, the X60. All of the X series models have that signature flat black casing which is quite nice. There are no annoying issues with fingerprints on the case, and who said you have to be shiny to look good anyway? The design is very minimalistic, but solid. Out of all the Tablets I have reviewed so far, the X61 is one of my favorites in terms of design, mostly due to its simplicity and functionality.

The X61 making its way into Tablet mode. (view large image)

There is no flex in the overall case and the chassis is sturdy. The X61 Tablet is easy to carry around as well, only weighing in at 3.8lbs. When it was in my notebook case I hardly even noticed the extra weight.

Students or on-the-go business professionals may want to take a good look at the X61 because this little Tablet is lightweight and rugged. The X61 has a small hinge, yet it still eliminates almost any hint of screen wobble. It also has the ThinkVantage Active Protection System, which protects the hard drive in the event of a system shocks or drop.

Display

The display on the X61 is nice. I know many users have said that the Lenovo screens are washed out, but I didn't find that to be the case with the X61. It does look a little faded when the screen is mostly white, but colors come through just fine. Especially impressive is that there's no graininess issue with the screen that I've seen on just about every other dual touch screen and pen enabled Tablet I've tested. The only real issue I had was with the screen's brightness. Even when set on the highest setting it was a little dim, which is probably why the screen looks washed out to many users.

The X61's touchscreen is great, it is very responsive to the touch of your finger. It also has Wacom active pen technology, so you can choose between input methods of pen or finger. The screen converts into Tablet mode with no problems, thanks to the secure hinge, which pivots 180 degrees clockwise. Once in Tablet mode the screen automatically adjusts itself to Tablet orientation or you can choose how you want the screen to be with the touch of a button.

Processor and System Performance

The X61 has improved in the performance department compared to the X60, it beat the X60 on all of the benchmarking tests. The Core 2 Duo L7500 1.6GHz processor doesn't have any problems running multiple applications at the same time.

The X61 I reviewed came with 2GB of memory, which is pretty much a necessity when running Vista, but you can get up to 4GB if you are interested. It also had a 100GB (7200 rpm) hard drive, which leaves you plenty of space to store those media files or documents. Boot-up time was a little slow, but nothing major, and that's more a symptom of Vista.

Benchmarks

Comparison Results for PCMark05

PCMark05 measures the systems performance as a whole: The ThinkPad X61 kicked butt in the PCMark05 test, blowing away all the other notebooks in its class.

Notebook	PCMark05 Score
Lenovo ThinkPad X61 (Intel Core 2 Duo 1.6GHz, Intel GMA X3100 graphics)	3,436 PCMarks
Gateway E-155C (Intel Core 2 Duo ULV 1.06GHz, Intel GMA 950 graphics)	2,205 PCMarks
LG C1 (Intel Core Duo 1.2GHz, Nvidia Go 7300)	2,568 PCMarks
Toshiba R400 (Intel Core Duo ULV 1.2GHz, Intel GMA 950 graphics)	2,187 PCMarks
HP tx1000 (AMD Turion X2 2.0GHz, Nvidia Go 6150)	3,052 PCMarks
Asus R1F (1.66GHz Core Duo, Intel GMA 950 graphics)	2,724 PCMarks

Lenovo ThinkPad X60t (1.66GHz LV Core Duo)	2,860 PCMarks
Panasonic ToughBook T4 (Intel 1.20GHz LV)	1,390 PCMarks
Asus R2H (900MHz Celeron M)	845 PCMarks
Toshiba Tecra M6 (1.66GHz Intel T2300E, Intel GMA 950)	2,732 PCMarks

Super Pi

In the below results of Super Pi, where the processor is timed in calculating Pi to 2 million digits:

Notebook	Time to Calculate Pi to 2 Million Digits
Lenovo ThinkPad X61 (1.6GHz Core 2 Duo)	1m 11s
Gateway E-155C (1.06GHz ULV Core 2 Duo)	1m 58s
LG C1 (1.2GHz Intel Core Duo)	1m 49s
Toshiba R400 (1.2GHz ULV Core Duo)	2m 10s
Asus R1F (1.66GHz Core Duo)	1m 20s
Lenovo ThinkPad X60t (1.66GHz LV Core Duo)	1m 24s
IBM ThinkPad X41t (1.5GHz LV Pentium M)	2m 02s
HP TC4400 Tablet PC (2.0GHz Core Duo)	1m 13s
Dell Latitude X1 (1.1 GHz ULV Pentium M)	2m 40s
Dell Latitude D420 (1.06GHz Core Solo ULV)	2m 11s
Toshiba Portege M400 (1.83GHz Core Duo)	1m 19s

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
