On April 22, 2021, Unified filed a petition for *inter partes* review (IPR) against U.S. Patent 9,781,448 (<https://portal.unifiedpatents.com/patents/patent/US-9781448-B2>), owned by the Electronics and Telecommunications Research Institute (ETRI) (<https://www.etri.re.kr/eng/main/main.etri>), as part of Unified's ongoing efforts in its SEP Video Codec Zone (<https://www.unifiedpatents.com/sep>). The '448 patent is part of the HEVC Advance Patent Pool (<https://www.hevcadvance.com/licensors/>), as well as SISVEL (<https://www.sisvel.com/>)'s AV1 ([https://www.sisvel.com/images/documents/Video-Coding-Platform/PatentList\\_AV1.pdf](https://www.sisvel.com/images/documents/Video-Coding-Platform/PatentList_AV1.pdf)) patent pool.

Unified is represented by Eric Buresh (<https://www.linkedin.com/in/ericburesh/>) of Erise IP (<https://eriseip.com/>) and by in-house counsel, Roshan Mansinghani (<https://www.linkedin.com/in/roshan-mansinghani-715a975/>) and Jung Hahm (<https://www.linkedin.com/in/jung-s-hahm-20598047/>), in this proceeding. Visit Unified's Portal (<https://portal.unifiedpatents.com/>) for more information about its Video Codec landscape (OPAL) ([https://portal.unifiedpatents.com/standards/opal/hevc/v3?alpha\\_threshold=60&count\\_by=grant&pools=Mpeg-La%20Hevc%20Patents&pools=Hevc%20Advance%20Patents&pub\\_status=Active&pub\\_status=Unknown](https://portal.unifiedpatents.com/standards/opal/hevc/v3?alpha_threshold=60&count_by=grant&pools=Mpeg-La%20Hevc%20Patents&pools=Hevc%20Advance%20Patents&pub_status=Active&pub_status=Unknown)) and standard submission repository (OPEN) (<https://portal.unifiedpatents.com/standards/open/hevc>). To read the petition and review the case record, view IPR2021-00827 (<https://portal.unifiedpatents.com/ptab/case/IPR2021-00827>) on the Portal.
