

StratosAudio Enabled Hyundai Autonet DIF 1000 Radio Receives CES 'Best of Innovations' Award for the Mobile Electronics Category

Friday December 20, 2003

The Hyundai Autonet Interactive Digital IF receiver features Motorola's Symphony Digital radio chipset and StratosAudio's Real-time Interactive data services.

Century City, Calif., Dec. 20 -- StratosAudio, Inc. announced today that Hyundai Autonet's Interactive Symphony Digital IF Radio (Model HA-DIF1000) has been honored by the Consumer Electronics Association with an International CES Innovations 2004 "Best of Innovations" Design and Engineering Award in the Mobile Electronics category.

The International CES Innovations Design and Engineering Showcase annually recognizes new consumer electronics products that exhibit excellence in both design and engineering. The program is endorsed by the Industrial Designers Society of America (ISDA).

The Interactive Symphony Digital Radio, based on StratosAudio's patent pending interactive technology, is the result of a collaborative development effort by StratosAudio, Motorola, and Hyundai Autonet. "Radio stations nationwide have recently begun providing RDS now-playing artist and song title services. Their listeners have echoed resounding approval. The StratosAudio enabled Hyundai Autonet DIF 1000 takes "now playing" and turns it into instant gratification at the touch of a button. This is a win for all involved."

The company will demonstrate the HA-DIF1000 at the 2004 International Consumer Electronics Show (CES) in Las Vegas, January 8-11. Hyundai Autonet will be located in booth 71128 in the Silver Exhibits. Limousine drive-arounds are also being scheduled.

About StratosAudio, Inc.

StratosAudio, Inc. a media services company that enables real time interactive advertising, programming and behavioral data aggregation for the radio broadcast industry. Our patent pending technology and interactive radio system enables listeners to respond to and interact with advertisements and broadcast information such as songs, promotions, listener polls and pledge drives with the touch of a button on the radio.
