4 declaration there were other terms that I determined

5 were indefinite.

6 Q BY MR. LORELLI: What terms were those?

7 And perhaps you can point me to that.

A Paragraph 75, the "unique key" of claim 5 9 is indefinite. Claim 16, paragraph 83, "second 10 non-volatile memory" is indefinite. Claim 17, "the 11 license record" is indefinite. That appears to be 12 the scope.

13 Q Let's talk about -- is it your opinion that 14 claim 1 of the '941 patent is directed to

controlling access based on data stored in a particular location? 16

17

A I'm sorry, can you repeat the question?

19 Is it your opinion that the claims -- I'm 20 sorry. Is it your opinion that the claim 1 of the

Are those four steps an algorithm in your

A A figure is not an algorithm, no.

8 Q So you're telling me that in your view you 9 would not -- you would not opine that the four steps

10 shown in Figure 2 -- strike that. That's a poorly worded question. 11

12 Your testimony is that Figure 2 does not 13 show an algorithm; is that true?

14 A Figure 2 contains four verbs: Selecting, setting up, verifying, acting. To me that's not an 15 algorithm. It's not even close. 16

Q What does one have to -- what

18 qualifications does something have to have to be an 19 algorithm in your view, sir?

20 A Algorithm has to describe how to do

21 something. 22 Q And what does Figure 2 describe how to do?

23 MR. CLAASSEN: Objection. Form.

24 THE DEPONENT: Figure 2 is just describing 25 high-level functional steps. It doesn't tell me how
