## PROCEEDINGS

| 1  |   |
|----|---|
| 2  | MR. SCANLON: Good morning. Welcome to the Patent Trial                          |
| 3  | Appeal Board. We're here today for the consolidated hearing in IPR2022-         |
| 4  | 00037 and 00040 between Petitioner Apple Inc. and Patent Owner Logan            |
| 5  | Tree LP. Both proceedings involve Patent No. 6,059,576. I'm Judge               |
| 6  | Scanlon, and joining me today are Judge Weatherly and Judge Worth. Let's        |
| 7  | start with appearances. Who's here for Petitioner, please?                      |
| 8  | MR. PATRICK: Thank you, Your Honor. I'm Andrew Patrick, I                       |
| 9  | represent Petitioner Apple. I'm joined today by my colleagues Usman Khan,       |
| 10 | Kim Leung, and Karl Renner. And also joining us is Tanya Mano (phonetic)        |
| 11 | from Apple.   |
| 12 | MR. SCANLON: Okay. Thank you. And for Patent Owner, please.                     |
| 13 | MR. WARDEN: For the Patent Owner, I'm David Warden, Your                        |
| 14 | Honor, at the AZA Law Firm in Houston, we represent Logan Tree LP. And          |
| 15 | with me today is Colin Phillips, who will handle the argument and Ab            |
| 16 | Henry, and our summer associate, Seth Roy (phonetic) who worked on the          |
| 17 | matter.   |
| 18 | MR. SCANLON: All right, very good. Thank you. So I would like                   |
| 19 | to begin with some brief guidelines for this video hearing. If at any time      |
| 20 | during the hearing you encounter technical or other difficulties, please let us |
| 21 | know immediately so we can address the issue. If you get disconnected           |
| 22 | completely, please contact the hearing staff who provided you with the          |
| 23 | connection information. Please make every effort, to speak clearly and          |
| 24 | avoid speaking over others. That will assist our court reporter in making a     |
| 25 | clear record. Also, please try to mute your line when you're not speaking.      |

- 1 We have the entire record, including the demonstratives in front of us. So
- 2 when referring to materials is helpful if you provide us with a page number
- 3 for the slide to improve the clarity of the record. Or if you're citing to other
- 4 exhibits or papers in the record to provide a page number or page and line
- 5 number.
- 6 Please be aware that we have a public access line open for the public
- 7 to listen in on the hearing. I don't believe there's any confidential
- 8 information in the record, but if there is something that's confidential that
- 9 you'd like to discuss, let us know so we can make accommodations. As set
- forth in the hearing order, each party is permitted 80 minutes to present their
- arguments. Because it bears the burden of persuasion, Petitioner will go first
- and may reserve no more than half of its time for a rebuttal. Patent Owner
- will then have an opportunity to respond and may also reserve time for a
- 14 surrebuttal.
- We'll keep the time to the best of our ability. And I'll try to provide
- updates about the remaining time as the hearing progresses. So with that
- 17 we'll start with Petitioner. Please let us know how much time, if any, you
- 18 would like to reserve or rebuttal.
- MR. PATRICK: Thank you, Your Honors. May I please the Board,
- 20 my name is Andrew Patrick and I represent Petitioner Apple. As mentioned,
- 21 I'm joined today by my colleagues Usman Khan, Kim Leung, and Karl
- Renner, and we plan to divide between us our presentation on the '037 and
- 23 the '040 IPRs. Also joining us is Tanya Mano of Apple. During our direct
- Usman will present on the '040 IPR and answer any related questions Your
- 25 Honors may have. Kim will thereafter present on the '037 IPR and answer
- 26 questions. We plan to spend approximately 50 minutes on direct and to

| 1 |                   | • • ,•         | C          | 1 44 1 41     | 1 1              |               |
|---|-------------------|----------------|------------|---------------|------------------|---------------|
| 1 | reserve our rem   | iaining fir    | ne for re  | huffal to the | extent rehuttal  | is warranted  |
| T | Tobol vo our roll | iuiiiiii 🗲 iii | 110 101 10 | outiul to the | CAtoni I Couttui | is waituited. |

- 2 I'd like to ask Your Honors to turn to slide 2 of the deck, which
- 3 provides an overview of issues that Usman will address with respect to the
- 4 '040 IPR. Notably, although the evidence presented in the '040 and '037
- 5 IPRs demonstrates the obviousness of the challenge claims twice over
- 6 different art. The main issues that have emerged through briefing with
- 7 respect to each IPR are similar. We therefore plan to address today first with
- 8 respect to the '040 IPR and then with respect to the '037 IPR record evidence
- 9 demonstrating the motivations that a person of skill would have had to
- integrate the applied art into the combinations on which the grounds are
- based before turning to the application of those combinations against
- 12 independent claim features relating to storing time stamp information
- reflecting a time at which movement data causing a first user defined event
- 14 occurred and interpreting movement data based on user defined operational
- parameters. After responding, Kim will have addressed the record evidence
- on these points and answered whatever related questions Your Honors may
- have, I'll return to the podium to address a final issue common to both IPRs.
- 18 With that, and unless Your Honors presently have questions, I'd like to now
- 19 turn the podium over to my colleague Usman.
- MR. KHAN: Thank you.
- MR. SCANLON: You can proceed when you are ready.
- MR. KHAN: Thank you, Your Honors, and thank you Andrew for
- 23 the introduction. Now may I please the Board, as Andrew had indicated, I
- 24 will be discussing the issues related to the '040 proceedings. If Your Honors
- could turn to slide 5. The first issue we'll be addressing is the issue of the
- 26 combination of the Allum, Raymond and Coleman references. If Your

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

# **Real-Time Litigation Alerts**

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

# **Advanced Docket Research**

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

# **Analytics At Your Fingertips**

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

#### **LAW FIRMS**

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

#### **FINANCIAL INSTITUTIONS**

Litigation and bankruptcy checks for companies and debtors.

## **E-DISCOVERY AND LEGAL VENDORS**

Sync your system to PACER to automate legal marketing.
