MORE EFFECTIVELY

**COMPARITIVE INTELLIGENCE**  
COLLECT PRICING INFORMATION WITHOUT BEING BLOCKED  
OR MISLED

The Microleaves network consists of millions of nodes with residential IPs and geographic coverage of every city in world.

## Why Microleaves Backconnect

**MILLIONS OF IPs**  
THE LARGEST PROXY NETWORK IN THE WORLD, SO YOU CAN  
HARVEST DATA AT SUPERSCALE

**INSTANT SCALING**  
ORDERS ARE AUTOMATICALLY PROCESSED AND YOU CAN  
ALMOST INSTANTLY SCALE

**IN EVERY CITY IN THE WORLD**  
DEFINE ANY CITY AS YOUR IP LOCATION, SO YOU CAN  
HARVEST LOCAL DATA

**RESIDENTIAL IPs**  
MICROLEAVES P2P PROXY NETWORK CONSISTS OF  
RESIDENTIAL IPs ONLY, SO YOU WILL NOT BE BLOCKED OR  
MISLED

**START IMMEDIATELY**  
TYPICAL INTEGRATION TAKES 2 MINUTES BECAUSE MOST  
SOFTWARE SUPPORT PROXIES OUT OF THE BOX

**HIGHLY RELIABLE**  
MICROLEAVES RESIDENTIAL IPs ARE NEVER DETECTED AS  
PROXIES, SO YOUR DATA IS ALWAYS FRESH AND ACCURATE

## Frequently Asked Questions

### How does it work?

Microleaves P2P routing service allows consumers to browse anonymously, by routing their requests through other users. We enable businesses to route their requests through the biggest P2P proxy network. Our network is perfect for Crawling and Data Mining.

### How do I get started?

You can Sign Up and create your billing account. Choose your membership and provide payment information. You will also need to provide a list of static IP addresses from your network for authentication. Everything is fully automated and orders are processed within few minutes by our system.

### Can I test a proxy before purchasing?

Unfortunately we no longer offer trial for our services due to abuses. We have however a 3 days money back guarantee for all our products in case our services is not what you were looking for.

### Can I choose my proxies locations?

Proxy location can be selected from the control panel or using our API only with our Special Backconnect. We also allow to select country per port group.

### What are Special Backconnect proxies?

Special plans enable Socks protocol, geo targeting and also allow our IPs to be used on Ticketmaster, AXS, StubHub, social websites (Facebook, Twitter, Pinterest, Instagram, YouTube, SoundCloud, LinkedIn), Amazon, Craigslist, email websites (Yandex, Outlook, Apple, GMX, Inbox, Myway, Zoho, Yahoo, AOL, G), Skype, Wikipedia, Xtremetop.

### Can I email with your proxies?

We allow our proxies to be used only for webmailing. By default all SMTP ports are blocked on all our IPs and we are doing our best to keep the IPs as clean as possible and not being abused.

### Are your IP addresses recognized by proxy testers as proxies?

All our proxies are 100% anonymous and not being detected as proxies. Our IPs are detected as normal users because of the residential ISP.

### How much are you charging for Bandwidth?

We're proud to offer zero bandwidth fees while some other providers might charge you per-gigabyte we charge for port number with unlimited traffic.

### Can you prepare a custom proxy package for me?

If you are in need of some custom plan designed especially for your needs then you are in the right place. Don't forget to ask for discounts on larger plans.

### Do you offer dedicated pools?

We have many clients that are working with us and have their own dedicated pools. A dedicated pool is basically used only by that client and he is paying only for the installs that his pool has. Feel free to contact us if you have any questions.

### How is Microleaves different from TOR?

The Data Company Technologies Inc. v. Bright Data Ltd.

We allow you to use our service, provided you are using it for legal and legitimate uses and in compliance with our license agreement. It is up to you to make sure that the way you use the service complies with the laws applicable in your country.

Is crawling a particular site legal?

The use of a crawler to extract data from a website may be done legally in relevant business relations. Under certain circumstances and in some specific jurisdictions, crawling may be in conflict with applicable regulation or in violation of the particular terms of service of the crawled site. Therefore, prior engaging in crawling activities of any sort, you should consult with a lawyer authorized to provide legal advice in the territory, and read carefully the applicable terms of service.
