

Petitioner's Limitation By Limitation Claim Listing U.S. Patent No. 8,293,742

No.	Limitation
1.P	A method for reducing eye redness
1.1	consisting essentially of administering brimonidine
1.2	to a patient having an ocular condition
1.3	wherein the brimonidine is present at a concentration between about 0.001% weight by volume and about 0.05% weight by volume
2.P	The method of claim 1,
2.1	wherein brimonidine is present at a concentration between about 0.001% to about 0.025% weight by volume
3.P	A method for reducing eye redness consisting essentially of
3.1	topically administering to a patient having an ocular condition a composition
3.2	to a patient having an ocular condition
3.3	a composition consisting essentially of brimonidine
3.4	into ocular tissue
3.5	wherein pH of said composition is between about 5.5 and about 6.5,
3.6	wherein said brimonidine concentration is between about 0.001% and about 0.025% weight by volume.
3.7	and wherein said composition is formulated as an ocular drop
4.P	The method of claim 3
4.1	wherein said composition is topically administered within about 24 hours after a Lasik surgery on said patient.
5.P	The method of claim 1,
5.1	wherein said ocular condition is chronic red eye

No.	Limitation
6.P	The method of claim 3
6.1	wherein said ocular condition is chronic red eye
