Subject: IPR2022-00222; SAMSUNG ELECTRONICS CO., LTD. et al. v. MEMORYWEB, LLC; Request for Reply to Preliminary Response

CAUTION: This email has originated from a source outside of USPTO. PLEASE CONSIDER THE SOURCE before responding, clicking on links, or opening attachments.

Your Honors,

In the preliminary response filed in IPR2022-00222, MemoryWeb raised arguments related to discretionary denial under *General Plastic* and *Fintiv* and also provided analysis of requirements of the claimed people view in relation to the Okamura prior art. Samsung requests authorization to file a 10-page reply to address these arguments from the preliminary response.

MemoryWeb opposes the request as to the claim interpretation issue and related arguments, but does not oppose as to the discretionary denial issues provided MemoryWeb also is permitted an equal number of pages to respond in a Sur-Reply. Samsung does not oppose a Sur-Reply of equal length.

Should the Board desire a conference call to discuss this request, the parties are available Wednesday any time after 10:30 AM to 2 PM ET or after 3 PM ET, Thursday 10:30 AM – 1:00 PM ET, or Friday after 10:30 AM ET.

Best Regards,
Jeremy
