I. ALL *FINTIV* FACTORS WEIGH AGAINST INSTITUTION 1

A. Factor 1: A stay is unlikely to be granted. 1

B. Factor 2: The district court trial will begin before the FWD deadline. 2

C. Factor 3: There has been significant investment in the district court. 2

D. Factor 4: Duplicative issues and inefficiencies remain..... 3

E. Factor 5: Petitioner is a defendant in the district court litigation. 4

F. Factor 6: The petition is substantively weak..... 5

II. INSTITUTION SHOULD BE DENIED UNDER § 314(a)..... 5

III. INSTITUTION SHOULD BE DENIED UNDER § 325(d)..... 7

IV. CONCLUSION..... 7

I. ALL *FINTIV* FACTORS WEIGH AGAINST INSTITUTION

All six *Fintiv* factors strongly favor a discretionary denial and Petitioner does not show otherwise. Trial in the district court is set for *four months* before the deadline for a final written decision (“FWD”) in this matter. IPRs were intended to be “an effective and efficient alternative” to district court litigation, but this IPR cannot be such an alternative under these circumstances. Allowing this IPR to proceed simultaneously with the district court litigation would result in duplicative work, risk conflicting decisions, and be an inefficient use of the Board’s finite resources. Institution should be denied.

A. Factor 1: A stay is unlikely to be granted.

Petitioner does not seriously dispute that the district court is unlikely to grant a stay. Patent Owner provides specific evidence, including evidence regarding the stage of the litigation, and reasonably concludes that a stay is unlikely under the applicable law—a position that Petitioner cannot refute. *See Samsung Elecs. Co. Ltd. v. Evolved Wireless LLC*, IPR2021-00950, Paper 10 at 10–11 (PTAB Nov. 29, 2021) (“*Evolved*”) (finding this factor weighed in favor of denial and denying institution where patent owner showed a stay was unlikely based on the advanced stage of the case and past decisions denying stays). The *Kirsch* case cited by Petitioner is inapposite because the Board’s FWD was due prior to the trial date in that case.

Moreover, Petitioner still has not filed a motion to stay, and still has not indicated that it even intends to file such a motion. Factor 1 weighs against institution.

B. Factor 2: The district court trial will begin before the FWD deadline.

Trial is set for February 2023, which is months before a FWD would be due. And contrary to Petitioner's assertions, this is more than sufficient to support a discretionary denial, especially given Judge Albright's strong policy against schedule changes. Indeed, the Board has denied institution under nearly identical circumstances. *See, e.g., Apple Inc. v. Fintiv, Inc.*, IPR2020-00019, Paper 15 at 7–8, at 13 (PTAB May 13, 2020) (“*Fintiv IP*”) (denying institution where the district court trial was scheduled two months before the deadline for FWD); *Evolved* at 13 (PTAB Nov. 29, 2021) (same); *Immersion Systems LLC v. Midas Green Techs., LLC*, IPR2021-01176, Paper 16 at 12–13 (PTAB Jan. 6, 2022) (“*Midas*”) (three months). And Samsung's meritless motion to transfer—where it failed to identify even one relevant witness in NDCA—only further confirms that there is no evidence to suggest the trial schedule might be delayed. Ex. 2022. Factor 2 weighs against institution.

C. Factor 3: There has been significant investment in the district court.

Petitioner asserts that the Board should simply ignore both the parties' and the district court's significant investment in claim construction. But the *Markman*

hearing is set for May 23, 2022. The Board’s decisions find that “substantive orders related to the patent at issue,” including claim construction orders entered by the district court, favor discretionary denial. *Apple Inc. v. Fintiv, Inc.*, IPR2020-00019, Paper 11 at 9–10 (PTAB Mar. 20, 2020) (precedential, designated May 5, 2020) (“*Fintiv I*”). For example, in *Midas*, the Board found the fact that a claim construction order had been entered and discovery was underway was “not insignificant” and denied institution. *Midas* at 13–14. The Board further found that “although it appears that much is left to occur in the related district court litigation, the evidenced expended effort is nevertheless not insubstantial.” *Id.* at 14. The same reasoning applies here. Claim construction briefing is now completed, discovery is open, and the parties have exchanged infringement and invalidity contentions. This is not insubstantial. “[T]he level of investment and effort already expended on claim construction and invalidity contentions” favors discretionary denial. *Fintiv II* at 13–14.

D. Factor 4: Duplicative issues and inefficiencies remain.

Petitioner does not dispute that the district court case involves the same patent, same claims, and the same invalidity references. And to erase any doubt as to the complete overlap regarding invalidity arguments and evidence, Petitioner’s invalidity contentions incorporate by reference its arguments and evidence in this

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
