Charles Torossian

The above-entitled matter came on for hearing on Friday,
February 17, 2023, commencing at 10:00 a.m. EST, by video/by telephone.

1   P R O C E E D I N G S

2   JUDGE AMUNDSON: Good morning. I'm Judge Amundson,

3   and with me on the panel are Judges Dang and Boucher.

4   We have our final hearing in IPR2022-00202,

5   involving U.S. Patent Number 10,142,810, and IPR2022-00291,

6   involving U.S. Patent Number 10,708,727, between Epic Games,

7   Inc., and IngenioShare, LLC.

8   Let's get the parties' appearances.

9   Who do we have for petitioner?

10   MR. SHI: Good morning, Your Honor. My name is

11   Lindsey Shi, and I am representing the petitioner, Epic

12   Games. With me in the room are Todd Baker, who is lead

13   counsel, and Jeanne Heffernan, who is outside counsel for

14   Epic Games in the related matter, the Texas litigation

15   described in the petition.

16   JUDGE AMUNDSON: All right. Thank you. And who

17   will be presenting today?

18   MR. SHI: I will be presenting today, Your Honor.

19   JUDGE AMUNDSON: All right. Thank you.

20   And who do we have for the patent owner?

21   MR. RISLEY: Good morning, Your Honor. This is

22   Steve Risley for IngenioShare.

23   JUDGE AMUNDSON: And will you be presenting today

24   for patent owner?

1   MR. RISLEY: Yes, Your Honor.

2   JUDGE AMUNDSON: All right. Thank you.

3   And again, thank you for your flexibility in

4   conducting the hearing by video. We know this departs from

5   our typical practice, and given that, we wanted to start by

6   addressing a few items.

7   First, our main concern is your right to be heard.

8   So if at any time during the hearing, you encounter technical

9   or other difficulties that you feel undermine your ability to

10   adequately represent your client, please let us know

11   immediately, for example, by contacting the team members who

12   provided you with the connection information.

13   Second, when not speaking, please mute yourself.

14   Third, please identify yourself each time you

15   speak. This will help the court reporter prepare an accurate

16   transcript.

17   Fourth, we have the entire record, including the

18   demonstratives, so when referring to a demonstrative or an

19   exhibit or a paper, please do so by identifying the slide or

20   page number. Also, please pause a little after identifying

21   the slide or page number to give others time to find it.

22   Fifth, we set forth the procedure for today's

23   hearing in the order granting the requests for oral argument.

24   But just to remind everyone the way this will work, the order

25   granting the requests for oral argument provided that each

1   party will have 60 minutes to present arguments.

2   After entering that order, the Board granted

3   petitioner's request for participation by a LEAP

4   practitioner, and granted petitioner an additional 15 minutes

5   of argument time. So petitioner will have 75 minutes of

6   argument time, and patent owner will have 60 minutes of

7   argument time.

8   Petitioner bears the ultimate burden of proof and

9   will go first, and petitioner may reserve time for rebuttal.

10 Patent owner will go next, and patent owner may reserve time

11 for surrebuttal, but patent owner's surrebuttal must be

12 limited to the issues in petitioner's rebuttal.

13   Also, please do not interrupt the other party while

14 that party is presenting its argument. If you have an

15 objection, please raise it during your argument.

16   I will keep time and will try to give you a warning

17 when you're nearing the end of your time.

18   So with that said, are there any questions before

19 we begin? Looks like none.

20   MR. SHI: Not for petitioner -- sorry. Excuse me.

21   JUDGE AMUNDSON: All right. Fine.

22   So, Mr. Shi, would you like to reserve any time for

23 rebuttal?

24   MR. SHI: Yes, Your Honor. Petitioner would like

25 to reserve 25 minutes for rebuttal.

DOCKET ALARM

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS
Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS
Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS
Sync your system to PACER to automate legal marketing.

fastcase®
Smarter legal research.
