

Declaration of Dr. Alex Kattamis  
IPR of USP 7,995,047

UNITED STATES PATENT AND TRADEMARK OFFICE

PATENT TRIAL AND APPEAL BOARD

SAMSUNG ELECTRONICS CO., LTD.

Petitioner

v.

BISHOP DISPLAY TECH LLC

Patent Owner

---

Case No. IPR2022-00501

Patent No. 7,995,047

**DECLARATION OF ALEX Z. KATTAMIS, PH.D., P.E.**

**TABLE OF CONTENTS**

<b>I.</b>	<b>INTRODUCTION</b> .....	<b>8</b>
<b>II.</b>	<b>EXPERIENCE AND QUALIFICATIONS</b> .....	<b>8</b>
<b>III.</b>	<b>TASK SUMMARY AND MATERIALS REVIEWED</b> .....	<b>10</b>
<b>IV.</b>	<b>LIST OF EXHIBITS</b> .....	<b>11</b>
<b>V.</b>	<b>SUMMARY OF CONCLUSIONS AND GROUNDS FOR CHALLENGE OF '047 PATENT</b> .....	<b>13</b>
<b>VI.</b>	<b>UNDERSTANDING OF THE GOVERNING LAW</b> .....	<b>14</b>
	A. Level of Ordinary Skill in the Art.....	14
	B. Legal Standard for Claim Construction .....	15
	C. Anticipation.....	16
	D. Obviousness .....	17
<b>VII.</b>	<b>OVERVIEW OF THE '047 PATENT</b> .....	<b>20</b>
	A. Priority Date for Claims of the '047 Patent .....	20
	B. The Subject Matter of the '047 Patent .....	21
	C. The Challenged Claims of the '047 Patent .....	28
	D. Prosecution History of the '047 Patent .....	31
	a. Originally Filed Claims on December 12, 2007 .....	31
	b. USPTO Examiner Issues Office Action on December 8, 2010 .....	35
	c. Applicants Respond to Office Action on March 7, 2011.....	35
	d. Notice of Allowance on May 31, 2011 .....	43
<b>VIII.</b>	<b>LEVEL OF ORDINARY SKILL IN THE ART FOR THE '047 PATENT</b> .....	<b>44</b>
<b>IX.</b>	<b>CLAIM CONSTRUCTION</b> .....	<b>44</b>
<b>X.</b>	<b>TECHNOLOGY BACKGROUND AND STATE OF THE ART FOR THE '047 Patent</b> .....	<b>45</b>
	A. Exemplary References Corroborating the General Engineering Knowledge .....	45
	a. Camara Handbook (Ex. 1007).....	45
	b. den Boer Text (Ex. 1008).....	45

c. Han Article (Ex. 1009) .....	46
B. General Display Background .....	46
C. Basic Circuits for Driving Displays .....	49
a. Voltage supply source / Voltage supply mode.....	49
b. Current supply source / Current supply mode.....	50
c. Voltage-current converting circuit .....	50
d. Capacitors .....	51
e. Voltage and Current Programming .....	53
<b>XI. OVERVIEW OF THE PRIOR ART TO THE '047 PATENT .....</b>	<b>57</b>
A. Shimoda (Ex. 1004) .....	57
a. Status of Shimoda as Prior Art.....	57
b. Overview of the Disclosure of Shimoda .....	59
B. Baek (Ex. 1005) .....	62
a. Status of Baek as Prior Art.....	62
b. Overview of the Disclosure of Baek .....	62
C. Sasaki (Ex. 1006) .....	66
a. Status of Sasaki as Prior Art.....	66
b. Overview of the Disclosure of Sasaki .....	67
<b>XII. GROUNDS 1 &amp; 2: SHIMODA.....</b>	<b>69</b>
A. Independent Claim 1 of the '047 Patent .....	70
a. 1(pre): “A current driving device, comprising:” .....	70
b. 1(a): “a first voltage supply source for supplying a first voltage;” .....	72
c. 1(b): “a first current supply source for supplying a first electric current;” .....	74
d. 1(c): “a plurality of output terminals;” .....	76
e. 1(d)(1): “and a plurality of current output circuits for outputting an electric current in accordance with said first electric current, each of said current output circuits comprising” .....	79
f. 1(d)(2): “a current-voltage converting circuit, a voltage-current converting circuit, a voltage holding circuit having a terminal	

being connected to a reference voltage different from the first voltage, and at least one current output terminal, wherein,” .....82

g. 1(e): “each of said current output circuits operates in three operation modes including a voltage supply mode, a current supply mode, and a current output mode,” .....92

h. 1(f): “under said voltage supply mode, each of said current output circuits receives said first voltage from said first voltage supply source, and the first voltage is supplied to another terminal of said voltage holding circuit,” .....93

i. 1(g): “under said current supply mode, each of said current output circuits receives said first current from said first current supply source, and generates a second voltage by said current-voltage converting circuit, and the first current is supplied to said another terminal of said voltage holding circuit, and” .....96

j. 1(h): “under said current output mode, each of said current output circuits outputs an output current according to said voltage held in said voltage holding circuit by said voltage-current converting circuit.” .....102

B. Claims Depending From Claim 1 of the ’047 Patent.....105

a. “2. The current driving device according to claim 1, wherein: each of said output terminals is connected to said current output terminals provided to said plurality of said current output circuits, and each of said plurality of current output circuits is connected in parallel to said first current supply source and said first voltage supply source used in common.” .....105

b. “3. The current driving device according to claim 1, wherein, in each of said current output circuits, said current-voltage converting circuit is actuated under said voltage supply mode.” .....111

c. “4. The current driving device according to claim 1, wherein each of said current output circuits is configured to stop said current-voltage converting circuit under said voltage supply mode.” .....112

d. “9. A current-driving-type display device, comprising said current driving device according to claim 1 mounted thereon so as to be driven by said current driving device.” .....113

**XIII. GROUNDS 3 & 4: BAEK.....113**

A. Independent Claim 1 of the '047 Patent .....114

    a. 1(preamble): “A current driving device, comprising:” .....114

    b. 1(a): “a first voltage supply source for supplying a first voltage;” .....115

    c. 1(b): “a first current supply source for supplying a first electric current;” .....117

    d. 1(c): “a plurality of output terminals;” .....120

    e. 1(d)(1): “and a plurality of current output circuits for outputting an electric current in accordance with said first electric current, each of said current output circuits comprising” .....123

    f. 1(d)(2) “a current-voltage converting circuit, a voltage-current converting circuit, a voltage holding circuit having a terminal being connected to a reference voltage different from the first voltage, and at least one current output terminal, wherein” .....125

    g. 1(e): “each of said current output circuits operates in three operation modes including a voltage supply mode, a current supply mode, and a current output mode,” .....135

    h. 1(f). “under said voltage supply mode, each of said current output circuits receives said first voltage from said first voltage supply source, and the first voltage is supplied to another terminal of said voltage holding circuit,” .....137

    i. 1(g). “under said current supply mode, each of said current output circuits receives said first current from said first current supply source, and generates a second voltage by said current-voltage converting circuit, and the first current is supplied to said another terminal of said voltage holding circuit, and” .....140

    j. 1(h). “under said current output mode, each of said current output circuits outputs an output current according to said voltage held in said voltage holding circuit by said voltage-current converting circuit.” .....144

B. Claims Depending From Claim 1 of the '047 Patent.....147

    a. “2. The current driving device according to claim 1, wherein: each of said output terminals is connected to said current output

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
