

Create Innovative Accessories

With over 1.5 billion active Apple devices worldwide, it's the perfect time to create hardware accessories that connect electronically to iPhone, iPad, iPod, and Apple Watch. The MFi Program offers a broad range of wireless and wired technologies that can be used in accessories that your company plans to develop or manufacture.

MFi Technologies and the Apple Ecosystem

The program gives you access to the technical specifications and resources needed to create accessories that communicate with Apple devices using MFi technologies and components. Learn more about some of our technologies.

HomeKit

Easily and securely control lights, doors, thermostats, and more using your Apple device or Siri.

AirPlay audio

Share music from your Apple device to your home audio systems or speakers.

Find My

Locate misplaced personal items using the Find My app with the peace of mind that your privacy is protected.

CarPlay

Seamlessly integrate your iPhone with your car's built-in display and controls while you stay focused on the road.
