This article provides answers to some commonly asked questions about Apple HomeKit and August Smart Locks. Find more information about how August Smart Locks work with Apple HomeKit here (<https://august.com/pages/homekit>).

Which August Smart Locks are compatible with HomeKit?

The following August Smart Locks are compatible with HomeKit:

- August Wi-Fi Smart Lock
- August Smart Lock Pro
- August Smart Lock, 2nd Gen
- Connected by August Smart Locks

PLEASE NOTE: An Apple Home bridge such as iPad, AppleTV, 4th Gen, or HomePod is required to access the lock remotely.

How do I install my HomeKit Enabled August Smart Lock?

Installation and set up steps for the HomeKit Enabled August Smart Lock are here (https://support.august.com/august-smart-lock-installation-guide-Sywl1wLk0_f). Setup in the August app to enable HomeKit.

Where do I find the code to set up HomeKit?

The code needed to set up the integration between the August Smart Lock and Apple HomeKit is found under the August app.

Does Siri work remotely?

Yes, if you have a compatible Apple bridge within Bluetooth range of your August Smart Lock that is setup to work with HomeKit. You can then use Siri remotely or operate remotely through the August app.

PLEASE NOTE: An Apple bridge (i.e.: AppleTV, HomePod, etc.) is required to operate HomeKit remotely for every version of August Smart Lock.
